

HONDROS COLLEGE OF NURSING – FAIRBORN CAMPUS, OHIO CAMPUS

Three (3) – Year Program Placement, Retention & Licensure Pass Rates: July 1, 2015 – June 30, 2018

The State Board of Career Colleges & Schools [Ohio] requires institutions make available to prospective students information regarding program placement, retention, and licensure pass rates for the previous three (3) years. Below are the placement, retention, and licensure pass rates as compiled and reported annually to the College’s accreditor - Accrediting Bureau of Health Education School (ABHES). Information is maintained, tracked, and updated via the College’s student database. ABHES requires member institutions to submit placement, retention, and licensure pass rates on an annual basis in November.

The ABHES reporting period is July 1 through June 30 of each year. Placement, retention, and licensure pass rates are reported per program. **Placement rates** are calculated by placed graduates divided by total graduates minus unavailable graduates (x 100) during the reporting period. **Retention rates** are calculated by total ending enrollment plus graduates divided by beginning enrollment plus new students plus re-entries for the reported period (x100). **Licensure pass rates** are calculated by total number of graduates passing exam on any attempt divided by the total number of graduates taking the exam (x 100).

PLACEMENT RATES

Program	Credential	Placement Rate	Total Graduates	Graduates Unavailable	Total Placed	Not Placed
July 1, 2015 – June 30, 2016 Reporting Period
