The initial edition of the 2020 Hondros College of Nursing Student Catalog was published January 6, 2020. Addenda to the student catalog may be published throughout the academic year and are posted on the student portal and Hondros College of Nursing website. This updated information should accompany the student catalog when issued as a hard copy.

Unless otherwise noted, the policies within this catalog apply to all Hondros College of Nursing locations.
WELCOME

Welcome to Hondros College of Nursing! You have selected a college designed with the motivated, mature learner in mind. We are committed to providing a high-quality education that serves our communities of interest. As you get to know us, you will have the opportunity to meet and work with our faculty who are experienced, dedicated and passionate educators. Our faculty bring significant hands-on professional experience to the classroom, lab and clinical experiences at Hondros College of Nursing. This allows us to provide our students with an education based on sound academic theory and real-world experience.

We appreciate and support your commitment to your future! Best wishes with your educational endeavors.

History of Hondros College of Nursing

Hondros College began in 1981 as a real estate preparatory school. In 2006, the College received approval from the Ohio Board of Nursing to offer Practical Nursing and Associate Degree in Nursing programs, which were launched at the West Chester campus, near Cincinnati, in January 2007. In 2008, 2009, 2011 and 2017 the College expanded the Practical Nursing and Associate Degree in Nursing programs to the Westerville, Fairborn, Independence, and Maumee campuses, respectively. The main campus of record at the Ohio Board of Nursing is the suburban Columbus (Westerville) campus.

Hondros College continued to pursue excellence in higher education. In 2011, the College proudly received authority from the Ohio Board of Regents to confer baccalaureate degrees. The online RN-BSN completion program welcomed its inaugural class in October 2011. In May 2013, the RN-BSN completion program at Hondros College became accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, (202) 887-679. Effective July 2018, the College is no longer enrolling new students in the RN-BSN program.

On November 1, 2013, Hondros College was acquired by American Public Education, Inc. (APEI) which provides the college additional resources to advance its mission. The real estate and other business programs remain associated with Hondros College of Business, which is a separate, unrelated organization.

Hondros College has responded to the needs of motivated, dedicated nursing students by introducing more flexible schedules, such as evening/weekend scheduling options. The College has taken additional steps to offer nursing education that is timely, relevant, and directly tied to the expectations of healthcare employers in the communities we serve. In January 2016, Hondros College introduced a concept-based curriculum and realistic, innovative lab simulation experiences to enhance the education and preparedness of nursing students at all campuses. To better reflect its mission, Hondros College changed its name to Hondros College of Nursing in 2016.

As an extension of its goal to provide student-centered career education that meets community needs, Hondros College of Nursing opened a Medical Laboratory Technology program in October 2017 at the West Chester non-main campus, and in April 2019 at the Westerville main campus. Effective July 2019, the College is no longer enrolling new students in the MLT program.

The College received approval from the Indiana Commission of Higher Education to offer the Practical Nursing programs, which will launched at the Indianapolis campus, in April 2020.

A copy of the Hondros College of Nursing Student Catalog is available at the front desk of each campus. Students maintaining continuous enrollment should follow the policies in effect at the time of enrollment. Students will be notified via the student portal of any addenda to the catalog, or publication of a new catalog. In accordance with Ohio Administrative Code 4723-5-12(B), Hondros College of Nursing will not implement changes to policies for student progression or requirements for completion for any students currently enrolled in the nursing programs.
# Academic Calendar 2019-2020

## Summer Quarter 2019
- **Summer Quarter Begins**: July 8, 2019
- **Registration opens for Fall Quarter 2019**: August 18, 2019
- **Registration closes for Fall Quarter 2019**: August 30, 2019
- **College Closed - Labor Day**: September 2, 2019
- **Finals Week**: September 16-20, 2019
- **Summer Quarter Ends**: September 20, 2019
- **Break**: September 21 - October 6, 2019
- **Commencement Date**: Provided by campus

## Fall Quarter 2019
- **Fall Quarter Begins**: October 7, 2019
- **Registration opens for Winter Quarter 2020**: November 17, 2019
- **Registration closes for Winter Quarter 2020**: November 29, 2019
- **College Closed - Thanksgiving Break**: November 28-29, 2019
- **Finals Week**: December 16-20, 2019
- **Fall Quarter Ends**: December 20, 2019
- **Break**: December 21, 2019 - January 5, 2020
- **Commencement Date**: Provided by campus

## Winter Quarter 2020
- **Winter Quarter Begins**: January 6, 2020
- **College Closed - Martin Luther King, Jr. Day**: January 20, 2020
- **Registration opens for Spring Quarter 2020**: February 16, 2020
- **Registration closes for Spring Quarter 2020**: February 28, 2020
- **Finals Week**: March 16-20, 2020
- **Winter Quarter Ends**: March 20, 2020
- **Break**: March 21, 2020 - April 5, 2020
- **Commencement Date**: Provided by campus

## Spring Quarter 2020
- **Spring Quarter Begins**: April 6, 2020
- **Registration opens for Summer Quarter 2020**: May 17, 2020
- **College Closed - Memorial Day**: May 25, 2020
- **Registration closes for Summer Quarter 2020**: May 29, 2020
- **Finals Week**: June 15-19, 2020
- **Spring Quarter Ends**: June 19, 2020
- **Break**: June 20, 2020 - July 5, 2020
- **Commencement Date**: Provided by campus

GENERAL INFORMATION

Accreditation and Approvals

ACCREDITATION

Hondros College of Nursing is institutionally accredited by the Accrediting Bureau of Health Education Schools (ABHES) to award diplomas, associate degrees, and bachelor’s degrees. The Accrediting Bureau of Health Education Schools is recognized by the United States Department of Education.

Accrediting Bureau of Health Education Schools
7777 Leesburg Pike, Suite 314
North, Falls Church, VA 22043
(703) 917-9503
www.abhes.org

The Hondros College of Nursing Practical Nursing program is accredited by the National League for Nursing Commission for Nursing Education Accreditation (NLN CNEA), located at 2600 Virginia Avenue, NW, Washington, DC 20037.

APPROVALS

Hondros College of Nursing is approved by the State Board of Career Colleges and Schools of Ohio. Westerville (Columbus) main campus 13-09-2024T, West Chester (Cincinnati) branch (non-main) campus 13-09-2027T, Fairborn (Dayton) branch (non-main) campus 13-09-2025T, Independence (Cleveland) branch (non-main) campus 13-09-2026T, Maumee (Toledo) branch (non-main) campus 14-01-2038T.

Hondros College of Nursing is approved to offer the following programs by the Ohio Board of Nursing: Associate Degree in Nursing and Practical Nursing diploma.

Hondros College of Nursing is approved by the Indiana Commission for Higher Education, located at 101 West Ohio Street, Suite 300, Indianapolis, IN 46204-4206. Hondros College of Nursing is approved to offer a Diploma in Practical Nursing program.

STATE AUTHORIZATION

State regulations require authorization for post-secondary institutions to offer distance education degrees, certificates, and courses, to students who live outside the institution’s home state. This may also include supervised field experience (clinical experiences and practicum placements).
Serving Out-of-State Students

Hondros College of Nursing, like all higher education institutions, is required to obtain authorization from individual states to enroll students residing outside of Ohio.

National Council for State Authorization Reciprocity Agreements (NC-SARA)

Hondros College of Nursing is approved by the Ohio Department of Higher Education to participate in NC-SARA.

Legal Control of the College

National Education Seminars, Inc., d.b.a. Hondros College of Nursing is a wholly-owned subsidiary of American Public Education, Inc., (APEI), a Delaware Corporation. APEI is a publicly-traded corporation, the common stock of which is listed on NASDAQ. APEI is located at 111 W. Congress Street, Charles Town, WV 25414.

BOARD OF DIRECTORS

Members of the National Education Seminars, Inc., (NES) Board of Directors are:

Major General (Retired) Barbara Fast, Chair
Dr. Wallace S. Boston, President, American Public University Systems, Inc., (APUS)
Harry T. Wilkins, CEO, National Education Seminars, Inc.
Dr. Peggy Wilmoth, Executive Dean and Associate Dean for Academic Affairs, University of North Carolina, College of Nursing, Chapel Hill, NC
Angela Selden, CEO, American Public Education, Inc., (APEI)

Executive Officers of American Public Education, Inc., are:

Angela Selden, CEO, American Public Education, Inc., (APEI)
Richard W. Sunderland, CPA, Executive Vice President & Chief Financial Officer

Members of the American Public Education, Inc. Board of Directors are:

Major General (Retired) Barbara Fast, Chair
Angela Selden, American Public Education, Inc., (APEI)
Eric C. “Ric” Anderson, Director
Jean C. Halle, Director
Dr. Barbara Kurshan, Director
Timothy J. Landon, Director
William G. Robinson, Jr., Director

LOCATIONS:

WESTERVILLE MAIN CAMPUS
(Suburban Columbus)
4140 Executive Parkway, Westerville, OH 43081
Programs: Associate Degree, Nursing; Diploma, Practical Nursing
The Hondros College of Nursing programs, at the Westerville main campus, utilize 6 classrooms, 2 nursing labs, 1 science lab, and 1 student study room to accommodate the multiple classes offered throughout the week and weekend. The 6 classrooms include a permanent mounting of a PC, DVD, LCD projector, presentation devices (such as remote mouse or laser pointer), projection screen, and P/A sound system. The PCs are connected to the College network which provides easy access to information and stimulates additional learning opportunities. The two nursing labs are each equipped with 4 hospital beds, 4 simulated moderate-fidelity patient mannequins, 4 IV poles, 2 laundry carts, 8 sets of hospital linens, 4 blood pressure cuffs, a wheel chair, crutches, a multitude of additional hospital equipment and numerous supplies. The science lab is equipped with 6 tables/stations, microscopes, body part models, skeletons, and additional supplies for lab simulation and study.

FAIRBORN BRANCH (NON-MAIN) CAMPUS
(Suburban Dayton)
1810 Successful Drive, Fairborn, OH 45324
Programs: Associate Degree, Nursing and Diploma, Practical Nursing
The Hondros College of Nursing programs, at the Fairborn branch campus, utilize 5 classrooms, 2 nursing labs, 1 science lab, and 1 student study room to accommodate the multiple classes offered throughout the week and weekend. The 5 classrooms include a permanent mounting of a PC, DVD, LCD projector, presentation devices (such as remote mouse or laser pointer), projection screen, and P/A sound system. The PCs are connected to the College network which provides easy access to information and stimulates additional learning opportunities. The two nursing labs are each equipped with LCD projection screens, 4 hospital beds, 4 simulated moderate-fidelity patient mannequins, 4 IV poles, 2 laundry carts, 8 sets of hospital linens, 4 blood pressure cuffs, a wheel chair, crutches, a multitude of additional hospital equipment and numerous supplies. The science lab is equipped with 2 large tables/stations seating 24 students, microscopes, body part models, skeletons, and additional supplies for lab simulation and study.

INDEPENDENCE BRANCH (NON-MAIN) CAMPUS
(Suburban Cleveland)
5005 Rockside Road, Suite 130, Independence, OH 44131
Programs: Associate Degree, Nursing and Diploma, Practical Nursing
The Hondros College of Nursing programs, at the Independence branch campus, utilize 4 classrooms, 2 nursing labs, 1 science lab, and 1 student study room to accommodate the multiple classes offered throughout the week and weekend. The 4 classrooms include a permanent mounting of a PC, DVD, LCD projector, presentation devices (such as remote mouse or laser pointer), projection screen, and P/A sound system. The PCs are connected to the College network which provides easy access to information and stimulates additional learning opportunities. The two nursing labs are each equipped with 4 hospital beds, 4 simulated moderate-fidelity patient mannequins, 4 IV poles, 2 laundry carts, 8 sets of hospital linens, 4 blood pressure cuffs, a wheel chair, crutches, a multitude of additional hospital equipment and numerous supplies. The science lab is equipped with 6 tables/stations, microscopes, body part models, skeletons, and additional supplies for lab simulation and study.

MAUMEE BRANCH (NON-MAIN) CAMPUS
(Suburban Toledo)
1684 Woodlands Dr., Maumee OH 43537
Programs: Associate Degree, Nursing and Diploma, Practical Nursing
The Hondros College of Nursing programs, at the Maumee branch campus, utilize 4 classrooms, 3 nursing labs, 1 science lab, and 6 student study rooms to accommodate the multiple classes offered throughout the week. The 4 classrooms include a permanent mounting of a PC, LCD projector, presentation devices (such as remote mouse or laser pointer), projection screen and P/A system. The PCs are connected to the College network which provides easy access to information and stimulates additional learning opportunities. The two nursing labs are each equipped with LCD projectors and screens, 4 hospital beds, 4 simulated moderate-fidelity patient mannequins, IV poles, laundry carts, med carts, hospital linens, a wheel chair, and a multitude of additional hospital equipment and supplies. The science lab is equipped with 3 large tables to seat 24, microscopes, body part models, skeletons, and additional supplies for lab simulation and study.

WEST CHESTER BRANCH (NON-MAIN) CAMPUS
(Suburban Cincinnati)
7600 Tyler’s Place Blvd., West Chester, OH 45069
Programs: Associate Degree, Nursing and Diploma, Practical Nursing
The Hondros College of Nursing programs, at the West Chester branch campus, utilize 4 classrooms, 2 nursing labs, 1 science lab, and 1 student study room to accommodate the multiple classes offered throughout the week and weekend. The 4 classrooms include a permanent mounting of a PC, DVD, LCD projector, presentation devices (such as remote mouse or laser pointer), projection screen, and P/A sound system. The PCs are connected to the College network which provides easy access to information and stimulates additional learning opportunities. The two nursing labs are each equipped with LCD projection screens, 4 hospital beds, 4 simulated moderate-fidelity patient mannequins, IV poles, 2 laundry carts, 8 sets of hospital linens, 4 blood pressure cuffs, a wheel chair, crutches, a multitude of additional hospital equipment and numerous supplies. The science lab is equipped with 3 large tables/stations to seat 24, microscopes, body part models, skeletons, and additional supplies for lab simulation and study.
The Hondros College of Nursing program, at the Indianapolis branch campus, utilizes 4 classrooms, 1 PN nursing lab, 1 science lab, and 6 student study rooms to accommodate the multiple classes offered throughout the week. The 4 classrooms will include a permanent mounting of the PC, DVD, LCD projector, presentation devices (such as remote mouse or laser pointer), projection screen and P/A sound system. The PCs will be connected to the College’s network which provides easy access to information and stimulates additional learning opportunities. The PN nursing lab is equipped with LCD projection screens, 4 hospital beds, 4 simulated moderate-fidelity patient mannequins, 4 IV poles, 2 laundry carts, 8 sets of hospital linens, 4 blood pressure cuffs, a wheel chair, crutches, a multitude of additional hospital equipment and numerous supplies. The science lab is equipped with 3 large tables/stations to seat 24, microscopes, body part models, skeletons, and additional supplies for lab simulation and study.
PURPOSE
Hondros College of Nursing’s primary purpose is to provide students with quality education in diploma, associate degree, and baccalaureate programs, and assist graduates in obtaining rewarding careers in their field of study.

MISSION STATEMENT
The mission of Hondros College of Nursing is to provide education through the baccalaureate level to a diverse and motivated population of students through traditional and non-traditional delivery methods. We will do this through providing high-quality education that is immediately applicable to our students’ career goals and the communities in which they serve, by faculty who have relevant and demonstrated experience.

COLLEGE OBJECTIVES
As an extension of its mission, Hondros College of Nursing strives to prepare students to meet the following objectives.

1. Demonstrate effective verbal and written communication
2. Apply scientific, legal, and ethical principles to professional practice
3. Integrate critical thinking into decision making
4. Engage in professional life-long learning
5. Demonstrate social responsibility, cultural sensitivity, and service in the community
6. Utilize technology in professional practice

PROGRAM OVERVIEW
- The PN and ADN programs are full-time programs with classroom, lab, and clinical components.
- Enrollment for the PN and ADN programs occurs 4 times per year (January, April, July, and October).
- The PN and ADN programs require a specific number of hours of clinical practice per week, depending on the course. Clinical shifts are usually 6-12 hours in length, and may be scheduled during the day, evening, or weekends. The College has clinical agreements with long term care facilities, MRDD facilities, daycares, hospitals, hospice, surgery clinics, and government agencies to provide students with a thorough, hands-on learning experience.

DIPLOMA IN PRACTICAL NURSING:
- Arranged to be completed in 4 quarters.
- Students who graduate from the PN program will be eligible to apply for the NCLEX®-PN exam.
- After graduation from the PN program and passing the NCLEX®-PN exam, students may choose to begin their career as a Licensed Practical Nurse, and/or they may choose to apply to the Associate Degree in Nursing program.

ASSOCIATE DEGREE IN NURSING:
- Arranged to be completed in 5 quarters.
- Students who graduate from the ADN program will be eligible to apply for the NCLEX®-RN exam.
- After graduation from the ADN program and passing the NCLEX®-RN exam, students may choose to begin their career as a Registered Nurse, and/or they may choose to apply to an RN-BSN completion program.
Program Overview

NURSING MISSION AND FRAMEWORK
Hondros College of Nursing strives to serve society and the community. Our Practical Nursing, Associate Degree in Nursing, and RN-BSN completion programs respond to society's healthcare needs and specifically to the nursing shortage. These nursing programs will stress the highest standards and values as they provide an educational ladder for Licensed Practical Nurses to become Associate to Baccalaureate-degreed Registered Nurses.

The curricular design of the programs promotes the opportunity for students to continue their nursing education. The nursing faculty is committed to providing high quality nursing education.

There are four (4) major concepts supporting the framework for education in the nursing programs. They are:

HUMAN BEINGS
Human beings are individuals who are unique and ever-changing as they move toward achieving their own individual potential. They are accountable for their own actions and decisions, although their behavior is influenced by both internal factors such as state of health, life stage development, and age, as well as external factors such as environmental, socioeconomic status and cultural practices. Human beings are parts of families, groups and communities.

HEALTH
Health is optimal body and mental functioning. It is a process by which an individual uses available resources to achieve his or her maximum potential or health. This requires effective balancing of internal and external systems. The inability to do so results in illness. Health is further defined by one's perception of his/her own well-being. Everyone has the right to optimal healthcare which is a shared responsibility of health professionals and the individuals for whom they care.

ENVIRONMENT
The environment consists of the interaction between one's internal and external systems. The internal system includes the individual's biological, psychological and spiritual components, while the external system is composed of a person's social network, sociocultural influences, family, healthcare systems and political and economic policy. One's external environment can influence health and healing in both positive and negative ways. Nursing strives to optimize the environment to promote health.

NURSING
Nursing is an art and a science that provides a human service. It integrates biological principles, behavioral sciences, technological theories, research, and caring to assist individuals and families to reach their maximum health potential. The nurse/client relationship is collaborative as the goal of health promotion, health maintenance and health restoration is accomplished. Through the use of the nursing process and therapeutic communication skills, nurses provide caring and respectful care to their clients. Nurses collaborate with other healthcare professionals, consumers, and health care policy makers.

NURSING CONCEPTUAL FRAMEWORK
An organizing framework for the Program was chosen to reflect not only a contemporary high-quality curriculum, but also a curriculum that is innovative in teaching and learning opportunities, and relevant to the practice of nursing at the practical nurse and registered nurse levels. To that end, the organizing framework of a concept-based curriculum has been adopted. The evolution from a content-based, medical model curriculum to a concept-based curriculum reflects the need for nurses to be critical thinkers and continuous learners.

The organizing framework is based on Giddens’s Concepts for Nursing Practice (2013). The Concepts for Nursing Practice framework is organized into 1) specific overarching units; 2) themes; and 3) concepts. Each overarching unit has specific themes. The themes have concepts to further organize knowledge. Concepts are integrated throughout the curriculum in order to meet specific course objectives and student learning outcomes. The progression of knowledge occurs as concepts and exemplars (examples) are leveled from basic to complex throughout the curriculum.

The faculty of Hondros College of Nursing has identified a multitude of concepts that are woven throughout the program offering structure as a conceptual framework for the curriculum. The conceptual framework is built upon the major components of the philosophy: human beings, nursing, environment and health. The supporting concepts of nursing roles,
Program Overview

teaching-learning, therapeutic interventions, culture, standards of practice, ethical and legal principles, nursing process, critical thinking, therapeutic communication, caring and client advocacy, professional accountability, and leadership and management help students develop and expand in their role as a nurse.

NURSING ROLES
Nurses practice within three (3) specific roles: provider of care, manager of care, and member of the discipline of nursing.

At the practical nursing level, the graduate role, under the direction of a Registered Nurse, includes the following:

A. PROVIDER OF CARE
1. Participates collaboratively in the nursing process by contributing to data collection for assessment, implementation, and evaluation of individualized plans of care.

2. Uses critical thinking, standards of practice and organizational skills in providing individualized nursing care to clients based on developmental, physiological, sociocultural, religious, and spiritual variations in clients.

3. Performs basic therapeutic nursing interventions using nursing knowledge, skills, and current technologies in a competent and safe manner.

4. Acts as a client advocate showing caring, empathy, and respect for the rights, beliefs, property and dignity of the individual.

5. Manages assignment of clients and delegates within the scope of practice to trained unlicensed personnel.

6. Practices the principles of effective and therapeutic communication with clients and their families.

7. Communicates pertinent observations related to the client to appropriate members of the health team.

8. Documents observations and care appropriately.

B. MEMBER OF THE DISCIPLINE OF NURSING PRACTICES
Within the profession’s ethical and legal framework, being accountable for one’s own nursing practice and professional growth.

At the ADN level, the graduate role expands to include the following:

A. PROVIDER OF CARE
1. Uses the nursing process (assessment, diagnosis, planning, implementation and evaluation) and standards of practice as a basis for clinical decision making in developing individualized plans of care.

2. Performs complex therapeutic interventions using nursing knowledge, advanced skills, and current technology in a competent and safe manner.

B. MANAGER OF CARE
1. Demonstrates leadership and accountability.

2. Delegates tasks appropriately.

3. Supervises assistive and unlicensed personnel and PNs.

4. Manages client care within a multi-disciplinary health care system.

5. Collaborates and communicates effectively with clients, families, and health team members.
C. MEMBER OF THE DISCIPLINE OF NURSING
Demonstrates an awareness of community and world health issues and their impact on individuals and health care.

At the BSN level, the graduate role expands to include the following:

A. PROVIDER OF CARE
1. Provides advanced clinical reasoning and problem solving skills when working with clients with more complex needs.
2. Manages advanced technology and applies scientific reasoning skills when applying evidence-based research findings in the clinical setting.
3. Ability to read and utilize appropriate research findings in the practice arena.
4. Develop strong humanistic and communication skills when caring for clients who have complex, multiple organ dysfunction, complicated family dynamics, and a need for collaboration with physicians and other departments for referral.

B. MANAGER OF CARE
1. Provides leadership in both structured and non-structured settings.
2. Ability to practice in community sites, such as health maintenance organizations, home health, community clinics, and managed care firms.
3. Applies advanced critical thinking skills to clinical decisions which enhance the quality of care of clients.

C. MEMBER OF THE DISCIPLINE OF NURSING
1. BSN level nurses are prepared to assume leadership roles in the community, join professional organizations, become an advocate at a legislative level, and complete specialty certification in their area of expertise.

TEACHING – LEARNING
Teaching – learning is a dynamic process by which the teacher promotes active student involvement in the learning process by acting as a facilitator, focusing on individual student learning styles and diverse needs. Effective teachers empower learners to think critically, communicate effectively in speaking, writing, and interaction with others, as well as reflect on their own learning to make it more meaningful.

Learning is a life-long process. Due to the generation of new knowledge that keeps health care content ever changing, learning experiences must focus on developing student abilities to be self-directed in gathering, analyzing and integrating new knowledge into their existing knowledge base. This will enable them to develop creative and innovative solutions to intellectual and clinical problems.

THERAPEUTIC INTERVENTIONS
Therapeutic interventions are the skills and techniques used by nurses to implement the plan of care developed in the nursing process. These skills and techniques help clients achieve the desired outcomes.

CULTURE
Culture refers to one's values, beliefs, norms, and practices of these systems in one's life. Cultural awareness or knowing about the similarities and differences among cultures helps to end prejudice and discrimination. Nurses must provide culturally competent care, appreciating the diversity and adapting care to fit the cultural context of the client.

STANDARDS OF PRACTICE
Standards of practice are formal statements by a profession related to quality of care and accountability of its practitioners. Evidence based practice is essential for quality nursing care.

ETHICAL AND LEGAL PRINCIPLES
Nurses routinely practice using the beliefs and values inherent in professional nursing. Ethical decision making is guided by the Nurse's Code of Ethics, while the Nurse Practice Act and governing laws provide rules of conduct and regulations to guide the nurse legally.
NURSING PROCESS
Nursing process is a specific problem-solving method nurses use for decision making. It is comprised of five (5) specific steps:
1. Assessment
2. Diagnosis
3. Planning
4. Implementation using therapeutic interventions
5. Evaluation

CRITICAL THINKING
Critical thinking is a purposeful process that enables a nurse to interpret, clarify, and analyze nursing problems, as well as generate multiple therapeutic solutions, evaluating the merits and shortcomings of each. In this process, one monitors and reflects on his/her own thinking and learning.

THERAPEUTIC COMMUNICATION
Therapeutic communication is an art in which nurses use interpersonal skills to help clients communicate their thoughts and feelings while displaying non-judgmental acceptance that promotes trust, an essential element to the therapeutic nurse-client relationship. Communication techniques, self-awareness, and collaborative skills are essential components of therapeutic communication.

CARING AND CLIENT ADVOCACY
Caring is an art in which the nurse watches over, attends to, and provides for the needs of clients. Essential to caring is an attitude of respect, empathy, and nurturing. Client advocacy is acting in the best interest of the client. Nurses must advocate for clients who are unable to do so for themselves.

LEADERSHIP AND MANAGEMENT
Leadership is a role and a process in which the nurse involves others in their plan for action. The leader must use the skills of facilitation, coordination, communication, and mentoring to get others to work more effectively. Management regulates care and resources through planning, organizing, directing, delegating, coordinating, and controlling.
ADMISSIONS REQUIREMENTS
Acceptance to Hondros College of Nursing is based on the following requirements:

1. The applicant must be a U.S. citizen or permanent resident of the United States. The applicant must submit official, unexpired government-issued documentation needed for admission (driver's license, state ID, passport, or proof of citizenship or permanent residency if not a U.S. citizen);

2. The applicant must be at least 18 years of age or older at the time he or she starts the program;

3. The applicant must complete and sign the application for admission and pay the applicable application fee;

4. The applicant must complete the Student Online Readiness Survey. For technology requirements, refer to the “Technology Requirements and Acceptable Use Policy” on page 23. There are no additional costs to enroll in courses offered only via distance education.

5. The applicant must be a high school graduate or possess the recognized equivalent of a high school diploma. The applicant must provide documentation of graduation from high school in the form of a valid high school diploma, transcript, or other acceptable documentation issued by an authorized state education agency (e.g., General Education Development (GED)). International transcripts/documents need to be evaluated by an organization that is a member of the National Association of Credential Evaluation Services (NACES) or Association of International Credential Evaluators, Inc. (AICE); and

6. The applicant must complete and sign the enrollment agreement and pay any applicable enrollment agreement fees.

ADDITIONAL REQUIREMENTS FOR THE OHIO PRACTICAL NURSING AND ASSOCIATE DEGREE IN NURSING APPLICANTS:

1. The applicant must complete an interview with an admissions representative;

2. The applicant must complete a criminal background check via electronic fingerprint check with National Background Check, Inc. (NBCI) for an Ohio [BCI] and FBI check, and pay the applicable fee.

ADDITIONAL REQUIREMENTS FOR THE INDIANA PRACTICAL NURSING APPLICANTS:

1. The applicant must complete an interview with an admissions representative;

2. The applicant must complete a criminal background check via electronic fingerprint check with IndentoGo (by MorphoTrust) for Indiana State Police (ISP) Records Division and FBI check, and pay the applicable fee;

3. The applicant must complete a drug screening through LabCorp, and pay the applicable fee.

ADDITIONAL REQUIREMENTS FOR ALL PRACTICAL NURSING APPLICANTS:

1. The applicant must take the HESI Admission Assessment Exam and achieve a cumulative score of 70% or higher. The HESI Admission Assessment Exam fee, for each attempt, is paid by the applicant.

ADDITIONAL REQUIREMENTS FOR ASSOCIATE DEGREE IN NURSING APPLICANTS:
Applicants may be admitted to the Associate Degree in Nursing program by meeting the criteria of either having completed an approved practical nursing program or through the direct entry option.

PRACTICAL NURSING PROGRAM COMPLETERS OPTION

1. Applicants who have not graduated from Hondros College of Nursing Practical Nursing Program are required to have, and maintain throughout the duration of the program, an active unencumbered PN license. Failure to maintain an active, unencumbered license throughout the duration of the program will result in being administratively withdrawn from the College.

2. Applicants must have graduated from an approved practical nursing program. Submission of a practical nursing program transcript is required. International transcripts/documents need to be evaluated by an organization that is a member of the National Association of Credential Evaluation Services (NACES) or Association of International Credential Evaluators, Inc. (AICE).
3. Hondros College of Nursing’s Practical Nursing program graduates applying to start the Associate Degree in Nursing Program the quarter immediately following their PN graduation may be admitted to the program prior to possessing an active unencumbered PN license, but must obtain, and maintain throughout the duration of the program, an active, unencumbered PN license prior to the start of their second quarter of enrollment in the Associate Degree in Nursing Program. Failure to obtain an active, unencumbered PN license prior to the start of the second quarter of enrollment in the Associate Degree in Nursing Program, or to maintain the license throughout the duration of the program, will result in being administratively withdrawn from the College.

4. Applicants that have completed a practical nursing program are not eligible for the Direct Entry option.

**DIRECT ENTRY OPTION**

1. The applicant must have completed a minimum of 32 semester credits/48 quarter credits of associate level, or higher, general education course work from prior college experience as determined by an official evaluation completed by Hondros College of Nursing. Coursework will be granted as Advanced Standing credit. Coursework eligible for transfer credit will not be granted as advanced standing credit. Please refer to the Transfer Credit Policy. International transcripts/documents need to be evaluated by an organization that is a member of the National Association of Credential Evaluation Services (NACES) or Association of International Credential Evaluators, Inc. (AICE).

2. The applicant must have earned a cumulative GPA of 2.75, or higher, from each prior college experience. An unofficial transcript is required from each previous post-secondary institution attended. Applicants that have not achieved a minimum cumulative GPA of 2.75 may request an appeal with the Campus Executive Director. The Campus Executive Director will notify the applicant of the appeal decision in writing. Official transcripts will be required from institutions where courses are being applied towards the Advanced Standing credits.

3. The applicant must take the HESI Admissions Assessment Exam and achieve a cumulative score of 75% or higher. The HESI Admissions Assessment Exam will include the following components: Reading Comprehensive, Grammar, Vocabulary & General Knowledge, Math, Anatomy & Physiology, and Biology. The HESI Admissions Assessment Exam fee, for each attempt, is paid by the applicant.
STUDENT CODE OF CONDUCT

Hondros College of Nursing expects all students to uphold the highest standards of integrity, professionalism, compassion and respect for fellow human beings. The Hondros College of Nursing Student Code of Conduct strengthens this philosophy by holding students to the highest standards. Any violation of the Student Code of Conduct may result in disciplinary action, up to and including dismissal from the college.

Examples of behaviors that violate the Student Code of Conduct include:

ACADEMIC MISCONDUCT

Academic misconduct refers to instances in which the student uses, or attempts to use, unacceptable means to avoid the full completion of the academic requirements of the program of study and its coursework; primarily, academic misconduct refers to cheating and plagiarism. The College will immediately address any instances of academic misconduct according to the policy outlined below.

Hondros College of Nursing considers the severity of the academic misconduct violation when assigning consequences for that action. Tier I instances are the least severe, and Tier III instances are the most severe. Examples of instances of academic misconduct include, but are not limited to, the following:

Tier I:

• Improper direct quotations: Using the exact words of another source, and failing to use quotation marks to indicate that they are a direct quotation from another writer. This is an instance of plagiarism regardless of whether or not citations and references are included in the work.

• Failed paraphrase: Using ideas from another source, but failing to fully rephrase those ideas into the author's own words. This is an instance of plagiarism regardless of whether or not citations and references are included in the work.

• Failure to cite and/or reference: Incorporating the words and ideas of others into a new work, but failing to provide citations and/or references for those words and ideas. Hondros College of Nursing follows the 6th edition of Publication Manual of the American Psychological Association (APA) for the formatting of citations and references.

• Self-plagiarism: Re-using work, or portions of work, from another class, assignment, or term without receiving the instructor's permission to do so.

Tier II:

• Copying: Improperly using information copied from another student's examination, homework, papers, or projects, whether inside or outside of class, and regardless of whether the course is delivered in lecture, lab, clinical, or online. This includes collaboration with another student to take an online quiz or exam or complete an assignment without the permission of the instructor.

• Using notes, resources, electronic devices, or any other materials or tools during a quiz or exam that the proctor has not explicitly allowed. This includes the practice of "information dumping," which occurs when students immediately write down a significant amount of information on the testable material on provided scrap paper or whiteboard at the start of the exam or quiz.

• Compromising course assignments or assessments in any way, including exams and quizzes: Exam and quiz questions and/or answers should never be shared with other students or any other party, or shared publicly (e.g., posting exam or quiz information online).

Tier III:

• Improper Submission of Others’ Work: Submitting the work of another person as one's own. Instances include, but are not limited to, turning in work created by another student, or any other individual; hiring or allowing another individual to complete work for the student, or take a quiz or examination on the student’s behalf; and purchasing and submitting work from another individual or a company that sells completed academic work.

CONSEQUENCES OF ACADEMIC MISCONDUCT

The consequences below are separate sequential progressions of penalties for academic misconduct violations, and are associated with the severity of the violation. Any instance of Academic Misconduct may result in immediate dismissal from the program.
Tier I:
- First instance: The opportunity to resubmit the assignment, at no penalty that would not have otherwise been assessed, after completing academic advising with the instructor or designee.
- Second instance: A zero on the assignment, project, paper, quiz or exam.
- Third instance: Failure of the course, with a notation of academic misconduct on the transcript.
- Fourth instance: Immediate dismissal from the program, and notation on the student’s permanent records of the Student Code of Conduct dismissal.

Tier II and Tier III:
- First instance: A zero on the assignment, project, paper, quiz or exam.
- Second instance: Failure of the course, with a notation of academic misconduct on the transcript.
- Third instance: Immediate dismissal from the program, and notation on the student’s permanent records of the Student Code of Conduct dismissal.

At the discretion of the program’s Sr. VP of Academics, occurrences of Tier III Academic Misconduct may be immediately advanced to the second or third instance in the progression above.

Students who have progressed beyond the course associated with the violation will receive a critical incident and face consequences per the Critical Incident policy.

If a student is subject to any of the consequences listed above and disagrees with the outcome, he or she may follow the Academic Appeal Policy, as outlined in the Student Catalog.

HARASSMENT CONDUCT
1. Physically or verbally abusing, assaulting, threatening, endangering, or harassing any person connected with the College or a clinical agency.
2. Engaging in harassment based on race, ethnicity, gender, sexual orientation, ability, or religious affiliation.
3. Engaging in sexual assault, sexual exploitation, sexual harassment, non-consensual contact, and/or stalking, as defined by the Ohio Revised Code.

DISRUPTIVE AND UNETHICAL CONDUCT
1. Improper verbal or physical conduct in any classroom, lab, clinical location while on College property or wearing the College uniform.
2. Threatening or actually physically harming another person or person's property.
3. Intentional disruption while in a classroom, lab, or clinical location. Disruptive conduct may include, but not limited to, arriving late to class, leaving class early, frequent breaks, outbursts, or any other activity that disrupts the educational and learning opportunities of other students.
4. Use of cellular phone and Bluetooth devices while in class, lab, or at clinical locations including texting and Internet usage. Due to patient confidentiality, cellular phones and Bluetooth devices are prohibited in the clinical setting.
5. Sleeping during class, lab, or at clinical locations.
6. Leaving the clinical facility before the end of the scheduled shift without faculty permission.
7. Unauthorized entry to or use of College facilities.
8. Theft or damage to the College or College property.
9. Possession, use, distribution and/or sale of any illicit/illegal substance.
10. Use of or being under the influence of alcohol or drugs while on College property and/or any clinical location.

Students should report any knowledge of such activities to the appropriate College personnel. Whenever anyone with supervisory responsibilities within the College suspects a student has fallen short of performance or behavioral standards due to the use of alcohol or drugs, or is under the influence of alcohol or drugs, the College may require that individual to submit a saliva, blood, or urine sample for alcohol and/or drug testing to stay enrolled in a program.
11. Carrying a firearm, deadly weapon, or dangerous ordinance anywhere on College property or on any clinical campus used by the College.
12. Having children on campus. Children are not permitted to attend classes, including labs and clinicals. Children are not permitted on campus or common areas used by the campus.
13. Smoking and tobacco use. Students may not smoke or use tobacco products of any kind, including electronic cigarettes, snuff, chewing tobacco, etc. at any clinical sites, while in uniform, or while on campus.
14. Students are not permitted to eat or drink in the nursing skills lab or the science lab.
15. Falsifying Information: This includes, but is not limited to, providing false information to College officials or clinical agencies, participating in forgery, and knowingly supplying the college false or altered documentation or information.
16. Failing to abide by College policies.

CONSEQUENCES OF MISCONDUCT - NON-ACADEMIC MISCONDUCT
The College has the right to discipline any student whose behavior violates the Student Code of Conduct or Ohio Board of Nursing regulations, as outlined below. Students will receive written notification of any disciplinary actions.

Depending upon the severity of the violation, the College may:
1. Issue a verbal warning to the student.
2. Issue a written warning to the student. The warning will be placed in the student file.
3. Immediately dismiss the student from the College.

Additionally, the College may be required to notify the state board of nursing of certain behaviors or offenses.

If a student is subject to any of the consequences listed above and disagrees with the outcome, he or she may follow the Academic Appeal Policy, as outlined in the Student Catalog.

Students who are dismissed due to a violation of the Student Code of Conduct are prohibited from being on College property and are not eligible for reinstatement.

ADDITIONAL STUDENT CONDUCT
REQUIREMENTS FROM THE OHIO BOARD OF NURSING (OAC,4723-5-12(C))
1. A student shall, in a complete, accurate, and timely manner, report and document nursing assessments or observations, the care provided by the student for the client, and the client’s response to that care.
2. A student shall, in an accurate and timely manner, report to the appropriate practitioner errors in or deviations from the current valid order.
3. A student shall not falsify any client record or any other document prepared or utilized in the course of, or in conjunction with, nursing practice. This includes, but is not limited to, case management documents or reports or time records, reports, and other documents related to billing for nursing services.
4. A student shall implement measures to promote a safe environment for each client.
5. A student shall delineate, establish, and maintain professional boundaries with each client.
6. At all times when a student is providing direct nursing care to a client the student shall:
   a. Provide privacy during examination or treatment and in the care of personal or bodily needs;
   b. Treat each client with courtesy, respect, and with full recognition of dignity and individuality.
7. A student shall practice within the appropriate scope of practice as set forth in division (B) of section 4723.01 and division (B)(20) of section 4723.28 of the Revised Code for a registered nurse and division (F) of section 4723.01 and division (B)(21) of section 4723.28 of the Revised Code for a practical nurse.
8. A student shall use universal blood and body fluid pre-cautions established by Chapter 4723-20 of the Administrative Code.
9. A student shall not:
   a. Engage in behavior that causes or may cause physical, verbal, mental, or emotional abuse to a client
   b. Engage in behavior toward a client that may reasonably be interpreted as physical, verbal, mental, or emotional abuse.

For the purpose of the following paragraph, the client is always presumed incapable of giving free, full, or informed consent to the behaviors by the student set forth in this paragraph.

10. A student shall not misappropriate a client’s property or:
   a. Engage in behavior to seek or obtain personal gain at the client’s expense;
   b. Engage in behavior that may reasonably be interpreted as behavior to seek or obtain personal gain at the client’s expense;
   c. Engage in behavior that constitutes inappropriate involvement in the client’s personal relationships; or
   d. Engage in behavior that may reasonably be interpreted as inappropriate involvement in the client’s personal relationships.
For the purpose of the following paragraph, the client is always presumed incapable of giving free, full, or informed consent to sexual activity with the student.

11. A student shall not:
   a. Engage in sexual conduct with a client; Engage in conduct in the course of practice that may reasonably be interpreted as sexual;
   b. Engage in any verbal behavior that is seductive or sexually demeaning to a client;
   c. Engage in verbal behavior that may reasonably be interpreted as seductive, or sexually demeaning to a client.
12. A student shall not, regardless of whether the contact or verbal behavior is consensual, engage with a patient other than the spouse of the student in any of the following:
   a. Sexual contact, as defined in section 2907.01 of the Revised Code;
   b. Verbal behavior that is sexually demeaning to the patient or may be reasonably interpreted by the patient as sexually demeaning.
13. A student shall not self-administer or otherwise take into the body any dangerous drug, as defined in section 4729.01 of the Revised Code, in any way not in accordance with a legal, valid prescription issued for the student.
14. A student shall not habitually indulge in the use of controlled substances, other habit-forming drugs, or alcohol or other chemical substances to an extent that impairs ability to practice.
15. A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of habitual or excessive use of drugs, alcohol, or other chemical substances that impair the ability to practice.
16. A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of a physical or mental disability.
17. A student shall not assault or cause harm to a patient or deprive a patient of the means to summon assistance.
18. A student shall not obtain or attempt to obtain money or anything of value by intentional misrepresentation or material deception in the course of practice.
19. A student shall not have been adjudicated by a probate court of being mentally ill or mentally incompetent, unless restored to competency by the court.
20. A student shall not aid and abet a person in that person’s practice of nursing without a license, practice as a dialysis technician without a certificate issued by the board, or administration of medications as a medication aide without a certificate issued by the board.
21. A student shall not prescribe any drug or device to perform or induce an abortion, or otherwise perform or induce an abortion.
22. A student shall not assist suicide as defined in section 3795.01 of the Revised Code.
23. A student shall not submit or cause to be submitted any false, misleading or deceptive statements, information, or document to the nursing program, its faculty or preceptors, or to the board.
24. A student shall maintain the confidentiality of patient information. The student shall communicate patient information with other members of the health care team for health care purposes only, shall access patient information only for purposes of patient care or for otherwise fulfilling the student’s assigned clinical responsibilities, and shall not disseminate patient information for purposes other than patient care or for otherwise fulfilling the student’s assigned clinical responsibilities through social media, texting, emailing or any other form of communication.
25. To the maximum extent feasible, identifiable patient health care information shall not be disclosed by a student unless the patient has consented to the disclosure of identifiable patient health care information. A student shall report individually identifiable patient information without written consent in limited circumstances only and in accordance with an authorized law, rule, or other recognized legal authority.
26. For purposes of paragraphs (C)(5), (C)(6), (C)(9), (C)(10), (C)(11) and (C)(12) of this rule, a student shall not use social media, texting, emailing, or other forms of communication with, or about a patient, for non-health care purposes or for purposes other than fulfilling the student’s assigned clinical responsibilities.

CRITICAL INCIDENT POLICY
A critical incident is defined as any incident that reflects poor performance in providing nursing care, managing care, or performing as a student in a professional manner. This behavior may or may not result in failure of the course in which the incident occurred. Critical incidents may be given for unsatisfactory behavior in the classroom, lab, and/or clinical. Critical incidents include, but are not limited to, the following: unsafe clinical or laboratory practice, violation of HIPAA, excessive tardiness, violations of the Student Code of Conduct, and dishonesty.
One critical incident, or a pattern of critical incidents, could result in failure of the course, or dismissal from the College, depending upon the severity of the incident. Violations will be reviewed by the Campus Dean/Director of Nursing or designee. Documentation of the Critical Incident will be kept in the student file on a Critical Incident Form.

**COPYRIGHT POLICY**

It is the policy of Hondros College of Nursing to respect the copyright protections given to authors, owners, and publishers under federal law including the Digital Millennium Copyright Act of 1998.

Copyright is the legal protection for creative intellectual works, which is broadly interpreted to cover almost any expression of an idea. Text (including e-mail and Web information), graphics, arts, photographs, video and other media types, music, and software are examples of types of works protected by copyright. The creator of the work, or sometimes the person who hired the creator, is the initial copyright owner.

Copyright infringement (or copyright violation) is the unauthorized or prohibited use of works covered by copyright law, in a way that violates on of the copyright owner’s exclusive rights, such as the right to reproduce or perform the copyrighted work, or to make derivative works.

Willful infringement may subject a student or employee to discipline and can impact the privilege to use information and technology resources for educational purposes at the College. Uploading or downloading works protected by copyright without the authority of the copyright owner is an infringement of the copyright owner’s exclusive rights of reproduction and/or distribution. Even an innocent, unintentional infringement violates the law.

The College has secured purchasing agreements with many of its hardware and software vendors that allow students to purchase these items at significant discounts. This is an alternative to help reduce illegal downloading or otherwise acquiring copyrighted material. Other alternatives are assessed annually by the College. Many resources found on the Internet are protected by copyright and should not be copied, distributed, or otherwise infringed upon by faculty, students or staff.

Pursuant to federal law, copyright notices are posted in all faculty, administration, and student copier access areas. Questions regarding copyright and possible fair use of copyrighted materials should be directed to Dr. Jeremy W. Hoshor-Johnson, Executive Vice President, Business Strategy & Regulatory Compliance, jhoshor-johnson@hondros.edu. For more information on United States copyright law, please consult the U.S. Copyright Office’s website at http://www.copyright.gov

**TECHNOLOGY REQUIREMENTS AND ACCEPTABLE USE POLICY**

Students are required to have personal laptops for classroom and online learning experiences and any other educational activity. Technology requirements for student laptops for all programs are listed below:

- A wireless card or built-in wireless networking
- Windows 10 operating system or newer. Alternate versions of Windows 10, such as Windows RT and Windows 10 S, are not supported
- Microphone and speakers or headset
- A display capable of 1024 x 768 resolution or greater
- 4 GB or RAM or higher
- 50 GB of free hard disk space or more
- A modern, multi-core Windows-compatible processor, that operates at a minimum of 2.0 GHz
- A modern graphics card capable of producing high-quality graphics and video
- Microsoft Office 2010 or higher
- Anti-virus software (current and regularly updated according to the software manufacturer)
- The latest versions of:
  - Internet Explorer
  - Firefox
  - Java
  - Adobe Flash Player
  - Adobe Shockwave Player
  - Adobe Acrobat Reader
Microsoft .NET Framework
DirectX
Wired headset or wired ear buds

In addition, students need access to a broadband internet connection of 3Mbps or greater. Students using adaptive technology are recommended to use JAWS (version 10.0 or later) or Window-Eyes (version 7.0 or later) with Sakai.

PN and ADN students receive a technology package, which includes a laptop, software, and capabilities for wireless connection. Having the accessibility of a laptop will allow students to stay connected with their classmates and faculty throughout their courses. All students are responsible for acquiring wireless access off campus. Free wireless access is available at each College campus.

Every student is expected to be proficient and responsible with the technology used at the College; this includes:

- College e-mail - Enrolled students are given a College student e-mail address. This e-mail address will be used to communicate with faculty, administration, and fellow students; it is the official e-mail address the College will use to communicate with students. Students should check their Hondros College of Nursing e-mail at least daily.

- CAMS Student Portal - Students will be required to utilize the Student Portal throughout their program. The College will post vital information, including addenda to this catalog, on the Student Portal. It is the responsibility of the student to access the Student Portal to:
  a. read news postings;
  b. stay current on changes/addenda to the Student Catalog;
  c. receive documentation and communication specific to his or her student record;
  d. access official midterm and final grades;
  e. complete end-of-term evaluations;
  f. access unofficial transcripts;
  g. access the student email system; and,
  h. access the Sakai platform.

- Sakai – All students taking online classes at Hondros College of Nursing will utilize the Sakai learning management system as their course classroom. The Sakai platform houses course lessons and documents, assignments and assessments, discussion forums, and the course gradebook. Students should log in to their online courses at least once per day. The Campus Deans/Director of Nursing or designee provides technical support for electronic educational products including, but not limited to, Sakai, HESI, Connect, etc.

Students are shown how to access the learning management system utilizing their own personal username and password.

While students are welcome and encouraged to contact the Helpdesk and student support services on their campuses for assistance, issues that cannot be resolved locally are escalated to the support team that administrates the Hondros Sakai learning management system. This team can be reached by phone or email during the following hours:

- Monday – Friday: 6:00 a.m. to 10:00 p.m. ET
- Saturday: 8:00 a.m. to 10:00 p.m. ET
- Sunday: 7:00 a.m. to 12:00 a.m. (Midnight) ET

For assistance, students should call 855-90-NURSE or email sakaisupport@hondros.edu.

Students attending Hondros College of Nursing agree to abide by the Acceptable Use Policy (AUP, see below). Failure to follow the College’s AUP can result in disciplinary action and possible prosecution under the mandates of federal and state law.

**ACCEPTABLE USE OF E-MAIL**

Hondros College of Nursing e-mail services should only be used for academic communications. Students’ use of e-mail should not interfere with others’ use of the systems and network. E-mail use shall comply with all federal and state laws and all College policy.
**ACCEPTABLE USE OF THE INTERNET AND THE WORLD WIDE WEB**

Students are encouraged to use the Internet to further their academic achievements and objectives. Individual Internet use should not interfere with others’ use and enjoyment of the Internet. Internet use shall comply with all federal and state laws and College policies.

**USERNAMES AND PASSWORDS**

The username and password issued to students for college activity are critical to network security. Usernames and passwords serve to protect user accounts and verify the identity of student users in courses, and therefore should not be shared.

**MONITORING AND FILTERING**

The College may monitor any Internet activity occurring through College equipment, networks, or accounts.

**USE OF SOCIAL MEDIA**

Personal participation in social media outlets is not objectionable; however, students are reminded that posts on such outlets are not private communications and should be considered to be part of the public domain. Students, faculty, and staff are expected to maintain professional standards of behavior at all times. If students choose to post about student life, best judgment should always be used. Postings and other communications on personal pages, blogs, journals, Twitter, Facebook, etc., that comment on other students or employees of the College and/or College activities, may become available to the College, and such posts may be held subject to professional standards and ethics that are set forth in the Student Catalog.

Students should not be connected to current or prior faculty on a social media outlet, even if the relationship existed prior to the student’s enrollment, unless that social media outlet or website is professionally oriented (for example, LinkedIn).

Posts about faculty and/or other students that are derogatory, demeaning, threatening, libelous, or which reveal non-public information about patients, fellow students, college policies, processes, procedures, or private business matters may be used as grounds for discipline up to dismissal. Posting information about patients is illegal, and a violation of existing statutes and administrative regulations, including HIPAA, which may expose the offender to criminal and civil liability.

**LOGO USAGE**

Student usage of the Hondros College of Nursing logo and seal is strictly prohibited.

**VIDEO/AUDIO RECORDING OF LECTURES POLICY**

Hondros College of Nursing prohibits video/audio recording and transmission of lectures and discussions by students unless express written permission from the class instructor has been obtained, and all students in the class as well as guest speakers, if any, have been informed that video/audio recording may occur.

Video/audio recordings, course materials, and lecture notes may not be exchanged or distributed for commercial purposes, for compensation, or for any other purpose other than study by students enrolled in the class. Public distribution of such materials may constitute copyright infringement in violation of federal and/or state law, and the College’s copyright policy.

**DRESS CODE & GENERAL APPEARANCE POLICY**

Requirements for grooming and appearance are based on safety, infection control, and the need to present a professional appearance. Grooming standards are as follows:

1. The skin should be cleansed daily. A deodorant should also be used daily. Makeup should be used in moderation with no heavy application of foundation, rouge, eye makeup or lipstick. Perfumes, colognes, and scented lotions or body sprays are not permitted.

2. The hair should be neatly groomed and of a natural color. For lab and clinical, long hair should be arranged back in a
ponytail, braids, or bun so that it does not fall into the face, on the back of the collar, or otherwise obstruct vision. Hair extensions and styles should be conservative. Beards and/or mustaches should be short, neat, and well-trimmed.

3. The hands should be clean and well cared for, with short fingernails, (natural nail tips no longer than 1/4 inch). Due to infection control standards, nail polish, nail overlay of any type, or artificial nails are not permitted at any time.

4. All tattoos that can be covered must be covered in the lab and clinical settings.

5. For lab or clinical: any visible body piercings, and/or tongue piercings must be removed or covered. Additionally, only one small stud earring per lower ear lobe may be worn. Only one plain, stone-less, smooth metal ring is permitted. A watch with a second hand or digital display is required. Medic Alert jewelry will be permitted at all times. No other jewelry will be allowed.

6. Hats, scarves, and other head coverings are not permitted in class, lab, or clinical unless required by religious guidelines or due to a verifiable medical situation. Headbands may be worn, however, must be of a solid color and without adornments.

UNIFORMS
All admitted students are given information about how to order College uniforms.

1. Students must wear approved uniforms to all lectures, labs, and clinical unless otherwise authorized by the campus leadership.

2. Students will be issued a photo ID badge that must be worn and visible above the waist at all times while on campus and at off-campus clinical sites. Lost ID badges must be replaced immediately. There is a $10 replacement cost for each badge.

3. Uniform must be freshly laundered, pressed, and in good condition.

4. Students are permitted to wear a plain white short or long sleeve t-shirt under the uniform.

5. Students must wear flesh/white color nylons or solid color socks.

6. Students are to wear clean nursing or athletic white shoes without any decoration or color to lab and clinical. Students are permitted to wear any type nursing or athletic shoe for class.

DISCIPLINARY ACTION RELATED TO DRESS CODE VIOLATIONS
Students not in uniform or not in adherence with the College Dress Code policy during any classroom, lab, or clinical experiences may be asked to leave the facility. The attendance policy will be applied and any absence incurred as a result of being out of dress code will be recorded. Violations of the dress code policy will be handled as follows:

1. First occurrence: The student will be given a warning of the dress code violation. Documentation of the warning will be kept in the student's file on an Opportunity for Growth Form.

2. Second occurrence: A written warning will be issued to the student via a Critical Incident Form.

3. Third Occurrence: The student will meet with the Campus Dean/Director of Nursing and Campus Executive Director to address their refusal to comply with the dress code. A second and final Critical Incident Form will be issued to the student.

4. Fourth Occurrence: The College reserves the right to dismiss a student for failure to comply with the dress code.
ATTENDANCE & TARDINESS POLICY
Hondros College of Nursing believes active participation in classroom, lab, online, and clinical experiences is essential for the development of the healthcare professional.

Attendance is expected in all courses. A record will be maintained for each student’s attendance and tardiness patterns in the classroom, on-campus labs, online courses, and clinical settings. Any and all absences put the student’s ability to be successful at risk. A student will be withdrawn from their program when any of the following criteria are met:

- A student fails to post any attendance during week 1; or
- A student has unexcused absences from all classes (including lab and clinicals) for fourteen (14) consecutive calendar days; or
- A student is absent from consecutive classes and/or lab meetings (excluding clinicals), as outlined in the following schedule, for a second time within their program.

<table>
<thead>
<tr>
<th>Class/Lab Meetings Per Week</th>
<th>Maximum Consecutive Unexcused Absences</th>

</tr>
</tbody>
</table>

Lecture and lab meetings for an individual course count as a separate “meeting” for that week. Online courses are considered as “meeting” once per week.

EXCUSED ABSENCES
The following documented absences may be considered excused for purposes of the attendance policy (see above). Excused absences do not apply to pre-class/out-of-class assignments. Pre-class assignments, by their very nature, are designed to prepare students for specific lecture content and therefore cannot be made up. An excused absence means that a student will not be penalized under the attendance and tardiness policy and will only be considered for purposes of whether or not a student will be administratively withdrawn.

- Court appearance – Applicable only when a student is mandated to appear in court for an action in which he/she is a third party or witness. Documentation will be required.
- Military Duty – All military personnel requesting an excused absence must submit a copy of their orders to the Campus Dean/Director of Nursing or designee prior to the missed time.
- Illness – In the event a student suffers personal illness or injury, either a written doctor’s note excusing participation in school or documentation of the stay in the hospital will be required.
- Bereavement – Applicable in the event of the death of an immediate or extended family member and not to exceed 3 days. Documentation (e.g. newspaper notice, funeral notice, obituary, or church handout) is required.
- Jury Duty – Documentation required (stamped jury duty form from court).
- Extenuating Circumstance - Approved by the program’s Sr. VP of Academics.

Documentation of the above approved excused absences should be presented to the Campus Dean/Director of Nursing or designee upon returning to school, or in advance when applicable. Students receiving funds from any state or federal agency may be subject to the additional attendance requirements of that specific agency.

CLASSROOM, LAB AND CLINICAL ATTENDANCE
Students are responsible to ensure they sign the attendance roster for each lecture, lab and clinical. Arriving late or leaving early is considered disruptive conduct per the Student Code of Conduct, and is subject to disciplinary action.
NCLEX® REVIEW ATTENDANCE
Students in their final term of the PN program will complete a two-day NCLEX® review, and students in their final term of the ADN program will complete a three-day NCLEX® review provided by the College. This event is designed to review test-taking strategies and curriculum content in order to increase student success on both the comprehensive and predictor examinations, and the NCLEX-PN® and NCLEX-RN® examinations. Due to the beneficial nature of this review, attendance is mandatory. Attendance will be taken daily. Any absences must be approved by the Campus Dean/Director of Nursing or designee. If approved, the Campus Dean/Director of Nursing or designee will provide a make-up plan. Completion of the NCLEX® review or the approved make-up must be completed prior to the administration of the final term HESI assessment.

ONLINE ATTENDANCE
Students are required to “attend” an online course through submission of weekly course work in an asynchronous or synchronous format.

Students who were unable to complete online coursework due to a valid, verifiable excuse (per the Excused Absences policy above), but who are still considered as present in the course during the timeframe in which the missed coursework was due, may make up the missed coursework if they provide proof of the excuse to the Campus Dean/Director of Nursing or designee within five (5) days of the due date of the missed coursework.

Excused absences only allow students to make up missed online coursework with a due date during the time period covered by the excuse, not the entire week for which the student received attendance.

CLINICAL/LAB ATTENDANCE
1. Due to the hands-on nature of the nursing and science labs, material presented may be difficult or impossible to replicate. Some lab experiences are not available to be made up, and the College is under no obligation to provide make-up opportunities. Arriving late or leaving early is considered disruptive conduct per the Student Code of Conduct, and is subject to disciplinary action.

2. All clinical attendance is 100% mandatory. Students are required to make up all missed clinical time resulting from an absence, tardiness, or leaving early. Students may only submit one clinical make-up form per term. Make-up clinical time must be approved by the Campus Dean/Director of Nursing or designee. Supporting documentation must be submitted with the make-up request form to be considered for approval. The College cannot guarantee clinical make-up time.

3. A student arriving one hour or more late to clinical will be sent away and required to make up the entire clinical. To make up the clinical, the student will be required to submit a Clinical/Lab Make-Up Form with supporting documentation, which must be approved by the Campus Dean/Director of Nursing or designee. A student arriving up to one hour late to clinical may, at the discretion of the clinical faculty, remain at clinical to complete that assigned shift. The student will have to make up the missed clinical time at a day, time, and location determined by the clinical faculty.

4. Any student not attending a clinical must notify the instructor and/or facility as directed by his/her clinical faculty member prior to the scheduled start time of the clinical experience. A no call/no show is defined as a student who does not call prior to the missed clinical experience. A no call/no show will receive a Critical Incident and may not be eligible for a clinical make-up. If a make-up clinical experience is not granted, the student will earn a failing grade in the course.

5. Students who have not completed the clinical eligibility requirements or specific clinical facility requirements will not be permitted to attend and will not be eligible for a clinical make up.

6. Absences from labs must be made up. A student arriving 30 minutes or more late to lab will be sent away and required to make up the entire lab. This will require submission of a Clinical/Lab Make-Up Form. Additional lab absences will require supporting documentation and approval by the Campus Dean/Director of Nursing or designee.

7. Exception: ALL missed lab time, including tardiness and leaving early, for the following courses: NUR 166, NUR 221, and NUR 232 must be made up.
FITNESS FOR DUTY POLICY

Students assigned to clinical rotations shall be deemed “fit for duty” by the student’s health care provider. If the clinical agency wants to verify the health records of any student assigned to the named agency, those records will be provided upon request.

Students prohibited by a health care provider to participate in lecture, lab, or clinical due to an illness, accident, or injury must notify the faculty member. A note from the student’s health care provider must be submitted to the Campus Dean/Director of Nursing or designee to verify student’s fitness for duty upon return to classes (lecture, lab, clinical). Students may not be permitted to attend lecture, lab, or clinical without this verification.

EXAM/QUIZ POLICY (CLASSROOM AND ON-CAMPUS LABS)

Students must be present in the classroom at the scheduled testing time in order to take the exam/quiz. Students who arrive late will not receive an extension of testing time. If a student arrives for the exam/quiz after more than half of the scheduled testing time has passed, or after any student has left the room, the student will be unable to sit for the exam/quiz and must follow the missed exam/quiz policy. No early exams/quizzes will be given.

1. No electronic communication devices or accessories, other than an approved laptop for taking an electronically-delivered examination, are allowed on the desk or person, including cellular phones, Bluetooth devices, ear buds, and Internet-connected watches. All devices must be off and stored in book bags. All students must keep their book bags at the front of the classroom.

2. Nothing but a pencil or other required items provided by the exam proctor may be at the desk, including drinks or bottles.

3. If a calculator is permitted, it must be a basic math calculator. Faculty will approve the calculator before testing begins.

4. Students will be required to supply a wired headset for use on HESI examinations.

5. A space must be left between each student and the person on either side of the student, if possible.

6. Students may not leave their seats for any reason without permission once the testing has begun. If a student leaves his or her seat without permission, the exam will be submitted as-is for grading.

7. Students may not immediately write down a significant amount of information on the testable material on their provided scrap paper or white-board at the start of the exam or quiz (i.e., “information dump”).

8. Graded exams/quizzes are not returned to students, but may be reviewed individually with a faculty member. Students may review the exam prior to the next scheduled testing event. Once the next testing event has occurred, the student may no longer review the exam.

9. For examinations delivered electronically via Examplify (the ExamSoft testing platform):
   a. Students must bring a working laptop with the Examplify software installed that meets Hondros College of Nursing’s technology requirements. Students who do not meet this requirement will not be permitted to take the exam.
   b. Students must submit the exam by the conclusion of the testing period. If a technical issue prevents the exam from being submitted during the testing period, it must be submitted as soon as possible, and no later than 24 hours after the end of the exam period. If the exam is not submitted within 24 hours of the conclusion of the testing period, the student will receive a grade of zero on the exam.

10. For paper examinations:
   a. Students may not write on anything except the paper test and scan card.
   b. Test answers may be recorded on a paper test and/or a scan card. Written responses to questions must be
designated clearly. Students will record their ID number, name, and date on both the scan card and exam/quiz paper test. For test questions that require the use of a scan card, only the responses on the scan card will be used for grading. The scan card and the paper test are to be turned in after completion.

EXAM/QUIZ POLICY (ONLINE)
Exams and quizzes for online courses are delivered through Sakai, unless noted otherwise within the course.

There are two time constraints on the exam/quiz: when the exam/quiz deadline passes (that is, the date and time at which students will no longer be able to access the exam or quiz), and when the time limit on the exam/quiz has ended (that is, when the amount of time allotted for students to take the exam/quiz is completed). Students must be careful to leave themselves enough time to complete the exam/quiz before the deadline passes, and must be cognizant of the time limitations of the exam/quiz, as well.

After an exam/quiz has closed, it will only be available for a limited time for review. Once the review period has closed, the exam/quiz can no longer be reviewed by the student.

Students are not allowed to work with other students to complete an online exam/quiz without the permission of the instructor. Collaborating in this manner is considered an act of academic misconduct.

MISSED EXAM/QUIZ POLICY (CLASSROOM AND ON-CAMPUS LABS)
Students that miss an exam/quiz and have a valid, verifiable excuse may take a make-up exam/quiz within two business days after returning to lecture, lab or clinical. It is the student’s responsibility to contact the instructor within 24 hours of the exam/quiz, by phone, e-mail, or in person, to schedule the make-up exam/quiz. If the student knows in advance of the exam/quiz that they will not be able to take the exam/quiz as scheduled, the instructor must be notified of the anticipated absence before the original exam/quiz is given.

1. No early exams/quizzes will be given.
2. The make up exam/quiz may be more difficult and have a different format than the original.
3. Unannounced or pop quizzes cannot be made up. If there is sufficient reason to excuse the quiz, the other quizzes will count more heavily towards the final grade.
4. Failure to follow these policies will result in a zero for the missed exam/quiz.

MISSED EXAM/QUIZ POLICY (ONLINE)
The only instance in which a student will be allowed to make up an exam/quiz is if there is an excused absence or there is a technical issue related to the platform upon which the exam/quiz is taken. If the student experiences a technical issue while taking the exam/quiz, he or she must email sakaisupport@hondros.edu while the exam/quiz is still open, and retain any replies from the technical support team as documentation of the issue. No exam/quiz will be given early.

LATE ASSIGNMENT POLICY (CLASSROOM AND ON-CAMPUS LABS)
All assignments should be submitted on time. Late assignments will lose 5% for each calendar day late. Assignments will not be accepted once the graded assignments are returned to the class. Due to their nature, pre-class assignments and in-class assignments (such as laboratories, in-class demonstrations, speeches, etc.) cannot be accepted late. No assignments will be accepted after the last day of class.

LATE ASSIGNMENT POLICY (ONLINE)
All assignments should be submitted on time. For each day late, assignments (including essays, papers, and other homework assignments) will be penalized by 5% of the assignment’s maximum score. Assignments will not be accepted more than 48 hours after the deadline. No assignments will be accepted after the last day of class.

LATE DISCUSSION POSTS AND REPLIES POLICY (ONLINE)
Discussion forums posts and replies submitted after the discussion’s final due date will not be accepted for a grade. For each day late, an initial or main post will be penalized by 5% of the post’s point value. Initial or main posts will not be accepted more than 48 hours after the deadline. Reply posts are not accepted late.
ACADEMIC APPEAL POLICY

Students who seek to appeal a decision related to academic policies including, but not limited to, the Student Code of Conduct, classroom policies, attendance, course assignment, or grades, should follow the Academic Appeal Policy.

Appeals related to test questions, an assignment grade, final exam, or final course grade must be submitted in a written format to the faculty, using the Academic Appeal Form, located in the Commonly Used Forms section of the Student Portal. Students must explain the rationale for their appeal with any appropriate citation and submit it to the course faculty.

Appeals related to test questions will follow the process below:

Appeals related to test questions must be submitted within seven (7) business days of receiving the grades, or before the next scheduled testing event, whichever comes sooner.

1. The course faculty of the campus where the appeal was generated will provide their input regarding the appeal to the team of college faculty teaching the course, the Campus Dean/Director of Nursing, and Sr. VP of Academics of the program within two (2) business days.
2. The course faculty will discuss the appealed question with the team of college faculty teaching the course within two (2) business days, and will submit their recommendations to the Campus Dean/Director of Nursing and the Sr. VP of Academics of the program.
3. The final decision will be made by the Sr. VP of Academic for the program within two (2) business days. The appeal decision is final.
4. The Sr. VP of Academics for the program will communicate the decision to the Campus Dean/Director of Nursing and the course faculty. The course faculty will communicate the decision to the student.

Appeals related to an assignment grade, the final exam, and the final course grade will follow the process below:

Appeals related to an assignment grade must be submitted within seven (7) business days of receiving the grade.

Appeals related to the final exam and the final course grade must be submitted by the end of week eleven (11).

1. The course faculty will provide their input regarding the appeal to the Campus Dean/Director of Nursing within two (2) business days.
2. The Campus Dean/Director of Nursing will review the appeal and make a decision within two (2) business days.
3. The Campus Dean/Director of Nursing will communicate the decision to the student.
4. If the student is not satisfied with the outcome of the appeal decision of the Campus Dean/Director of Nursing, they may appeal to the Sr. VP of Academics for the program within two (2) business days.
5. The final decision will be made by the Sr. VP of Academics for the program within two (2) business days. The appeal decision final.
6. The Sr. VP of Academics will communicate the decision to the student.

Appeals related to clinical or lab make-up will be submitted to the Sr. VP of Academics for the program within two (2) business days of receiving the Clinical/Lab Make-up Request decision from the campus.

1. The final decision will be made by the Sr. VP of Academics for the program within two (2) business days. The appeal is final.
2. The Sr. VP of Academics for the program will communicate the decision to the student.

For appeals related to academic decisions that are non grade related, the student is asked to follow the steps outlined below:

1. Submit in writing, using the Academic Appeal – NON GRADE RELATED Form, located in the Commonly Used Forms section of the Student Portal, within five (5) business days of the academic decision, a detail of the appeal and a recommendation to the Campus Dean/Director of Nursing or designee. The Campus Dean/Director of Nursing or designee will respond with their decision, in written format, to the student within two (2) business days.
2. If the student is not satisfied with the outcome of the appeal decision of the Campus Dean/Director of Nursing or designee’s decision, the student may submit their appeal, in written format, using the Academic Appeal – NON GRADE RELATED Form, to the program’s Sr. VP of Academics within one (1) business day. The program’s Sr. VP of Academics will respond with their decision, in written format, to the student within three (3) business days.
3. If the student feels the academic appeal has not been satisfactorily resolved, the student may request, in written format, using the Academic Appeal - NON GRADE RELATED Form, within three (3) business days of receiving the decision, that the program’s Sr. VP of Academics convenes an unbiased panel to review the request.
4. The program’s Sr. VP of Academics will formally respond, in writing, to the student within five (5) business days. This decision is final and no further appeal will be considered by the College.

Failure to follow the timelines prescribed in the appeal procedure will result in an automatic denial of appeal and forfeiture of future consideration from Hondros College of Nursing.
STUDENT GRIEVANCE PROCEDURE
A grievance is a complaint or concern regarding College policies, procedures, or unfair treatment, that are not academic related. Academic appeals should follow the “Academic Appeal Policy.”

Hondros College of Nursing encourages students to meet with the Campus Executive Director to informally resolve any grievance(s). In the event the student is not satisfied with the outcome, the student is asked to follow the steps outlined below.

1. Submit in writing, within five (5) business days, a detail of the grievance and a recommendation of resolution to the Campus Executive Director. The Campus Executive Director will formally respond, in writing, to the student within three (3) business days.

2. If the student feels the grievance has not been satisfactorily resolved, the student may appeal to the program’s Sr. VP Academics. Appeals must be submitted, in writing, within three (3) business days of receiving the Campus Executive Director’s decision.

The program’s Sr. VP of Academics will convene an unbiased panel to review the request. The program’s Sr. VP of Academics will formally respond, in writing, to the student within five (5) business days. This decision is final and no further appeal will be considered by the College.

Failure to follow the time-lines prescribed in the grievance procedure will result in an automatic denial of appeal and forfeiture of future consideration from Hondros College of Nursing.

If the student is not satisfied, the student may contact the Executive Director of the State Board of Career Colleges and Schools, 30 East Broad Street, Suite 2481, Columbus, OH 43215, (614) 466-2752, to state the grievance and/or

If the student is not satisfied, the student may contact ABHES, 7777 Leesburg Pike, Suite 314, North, Falls Church, VA 22043, (703) 917-9503.

PATIENTS’ RIGHTS
Consumers of health care have the right to be respected as individuals. The client has the right to expect confidentiality of communication pertaining to his or her care. No part of the client’s record may be removed from the agency or reproduced. Written material submitted as a required assignment that contains information regarding an actual patient or client is the property of Hondros College of Nursing. All rules and regulations under the Health Insurance Portability and Accountability Act (HIPAA) of 1996 will be strictly followed. For more information on HIPAA please go to http://www.hhs.gov/ocr/privacy/

NATIONAL PATIENT SAFETY GOALS
The purpose of the National Patient Safety Goals is to improve patient safety. The goals focus on problems in health care safety and how to solve them. Students are required to monitor all aspects of patient safety. The National Patient Safety Goals address specific areas:

1. Identify patients correctly: Use at least two ways to identify patients. For example, use the patient’s name and date of birth. This is done to make sure that each patient gets the correct medicine and treatment. Make sure that the correct patient gets the correct blood when they get a blood transfusion.

2. Improve staff communication: Get important test results to the right staff person on time.

3. Use medicine safely: Before a procedure, label medicines that are not labeled. For example, medicines in syringes, cups, and basins. Do this in the area where medicines and supplies are set up. Take extra care with patients who take medicines to thin their blood. Record and pass along correct information about a patient’s medicines. Find out what medicines the patient is taking. Compare those medicines to new medicines given to the patient. Make sure the patient knows which medicines to take when they are at home. Tell the patient it is important to bring their up-to-date list of medicines every time they visit a doctor.

4. Use alarms safely: Make improvements to ensure that alarms on medical equipment are heard and responded to on time.

5. Prevent infection: Use the hand cleaning guidelines from the Centers for Disease Control and Prevention or the World Health Organization. Set goals for improving hand cleaning. Use the goals to improve hand cleaning.

   a. Use proven guidelines to prevent infections that are difficult to treat.
b. Use proven guidelines to prevent infections of the blood from central lines.

c. Use proven guidelines to prevent infections after surgery.

d. Use proven guidelines to prevent infections of the urinary tract that are caused by catheters.

6. Identify patient safety risks: Find out which patients are most likely to try to commit suicide.

7. Prevent mistakes in surgery: Make sure that the correct surgery is done on the correct patient and at the correct place on the patient’s body. Mark the correct place on the patient’s body where the surgery is to be done. Pause before the surgery to make sure that a mistake is not being made.

Information obtained from http://www.jointcommission.org/standards_information/npsgs.aspx

STUDENT SAFETY

Students must follow established standard precautions for their own safety in clinical settings and on-campus laboratory activities. Students must know basic preparedness for emergency procedures, such as fire or weather-related occurrences, that are posted on the student portal.

STANDARD PRECAUTIONS

Standard precautions will be followed at all times, including in nursing and science laboratories. This method of infection control requires the student to assume that all human blood and specified human body fluids are infectious for HBV, HIV, and other blood borne pathogens. Where differentiation of types of body fluids is difficult or impossible, all body fluids are to be considered as potentially infectious.

BLOOD-BORNE PATHOGENS & EXPOSURE CONTROL PROTOCOL

Hepatitis B Virus (HBV) and Human Immunodeficiency Virus (HIV) Education and Management

1. Prior to any exposure to clients/patients and as a prerequisite to clinical preparation, students will receive instruction on universal precautions for blood and body borne infections in accordance with applicable Centers for Disease Control (CDC) guidelines. Information regarding personal health habits, HBV and HIV prevention, and risk behaviors will be given. Exposure control education will be provided in the first quarter courses, and will be continually reinforced. Documentation indicating that each student has been provided this information will be kept on file with the departmental office.

2. All healthcare personnel are ethically and professionally obligated to provide client/patient care with compassion and respect for human dignity. No healthcare personnel may ethically refuse to treat a patient solely because the patient is at risk of contracting, or has, an infectious disease such as HIV, AIDS, or HBV. Students and faculty must understand and follow rules of confidentiality as stated under Patient Rights, as well as all applicable laws and regulations.

3. Clinical supervision is managed to ensure strict compliance in all clinical learning experiences.

STUDENTS WHO ARE HBV OR HIV POSITIVE

1. Students who are HBV or HIV positive, or who have AIDS, must follow the CDC guidelines and universal precautions.

2. Students who know they are infected are encouraged to voluntarily inform their Campus Dean/Director of Nursing or designee. The Campus Dean/Director of Nursing or designee will begin a process to assess the need for necessary modifications/accommodations in a clinical education or job function.

3. Clinical and laboratory settings that pose additional risk to the personal health of HIV positive students and faculty should be identified. Such persons should be advised of these risks and urged to consult their health care provider to assess the significance of the risks to their own health.

4. Any modification of clinical/lab activity of HBV positive or HIV positive students will take into account the nature of the clinical/lab activity, the technical expertise of the infected person, the risks posed by HBV or HIV carriage, functional disabilities, and the transmissibility of simultaneously carried infectious agents.
TESTING GUIDELINES FOR HBV AND HIV
Students have ethical responsibilities to know their HBV and HIV status and have an obligation to be tested if they believe they may be at risk for HBV or HIV antibody. While the testing decision should be voluntary for the individual, there may be instances in which testing could be required. Students may choose where to receive testing. The College supports the principle of confidentiality and individual rights in conjunction with the CDC guidelines on exposure to blood-borne disease.

HEPATITIS B VACCINE IMMUNIZATION
In accordance with College and clinical agency policies, all students are required to present documentation of a completed series of HBV immunizations prior to attending clinical. If the student declines to complete the series due to health, religious, or other reasons, a declination form must be signed.

UNIVERSAL PRECAUTIONS
Universal precautions will be followed at all times. This method of infection control requires the student to assume that all human blood and specified human body fluids are infectious for HBV, HIV, and other bloodborne pathogens. Where differentiation of types of body fluids is difficult or impossible, all body fluids are to be considered as potentially infectious.

POST-EXPOSURE PROTOCOL FOR PROPHYLAXIS OF HBV OR HIV
The use of personal protective equipment, appropriate engineering controls, and proper work practices must be continually reinforced among faculty and students to prevent exposure incidents to blood or other potentially infectious materials (OPIM). However, if an incident occurs, faculty and students should report the incident as soon as possible and be fully familiar with the procedures for testing, evaluation, and treatment.

A potential exposure incident can include:
1. Percutaneous inoculation: needle sticks or sharps
2. Non-needle percutaneous injury: open cuts or abrasions
3. Direct mucous membrane contact: accidental splash
4. Non-intact skin contact with blood or OPIM

INITIAL RESPONSE TO EXPOSURE
1. Immediately apply first aid as appropriate
2. Allow to bleed freely (for needle stick/puncture injury)
3. Wash thoroughly with soap and water
4. Mucous membrane: flush copiously with water
5. Eyes: Irrigate and/or flush copiously with water
6. Document the incident, including:
   a. Route of exposure
   b. How and when exposure occurred
   c. The source individual, if known
7. Report exposure immediately to nursing or medical laboratory faculty and appropriate supervisor on campus or at the clinical agency.

POST EXPOSURE RESPONSE BY STUDENTS
In the event a student receives a needle puncture injury or other parenteral contact, the guidelines of the affiliating agency shall be followed. It is the injured/exposed student’s responsibility to report and follow the criteria established by the facility to report the incident to the instructor, and to address any expenses incurred. The College will not accept responsibility for expenses incurred.

1. Student and instructor should determine immediately if the incident involved a clean or used needle.

2. Any student on clinical rotation who has a needle puncture shall be sent to his/her physician or other health care agency. Protocols of the facility will be followed.

3. Injuries sustained with needles that have not been used on patients or their blood products require careful cleansing. Ice should be applied to the wound if needle contained a vesicant chemotherapeutic agent. Tetanus prophylaxis should be individualized.
4. If a student reports a potential exposure incident to blood or OPIM, the following CDC guidelines are to be followed.

- A student should be tested for HIV to establish zero negativity first, followed by a retest at 6 weeks, 3 months, 6 months, and one year. Students are financially responsible for any cost incurred with testing or treatment.
- A blood borne exposure form should be completed and taken to the health care provider for appropriate testing and possible treatment. A copy will be kept in a confidential file. If the student elects not to follow the guidelines, she or he must sign the declination statement.

Information obtained from http://www.cdc.org.
ACADEMIC ADVISING
Academic advising is available to students throughout the student's course of study, and is confidential and impartial. Students seeking academic advising should schedule an appointment with a faculty member or Academic Support Advisor outside of regular class time.

In addition, students are provided the opportunity to participate in one-on-one, group, student-to-student, faculty-led, and/or online tutoring sessions. Students are able to participate in tutoring sessions throughout their education and are encouraged to seek assistance from faculty on a regular basis.

The College does not offer counseling services. Students seeking counseling services should speak with the Campus Executive Director or Academic Support Advisor for appropriate referrals to community service organizations.

CAREER SERVICES
The College aids alumni in finding employment by assisting with resume preparation, helping with development of interviewing skills, and identifying appropriate job leads. Through career development, including professionalism, motivation, and the maintenance of ethical standards, students and alumni are empowered with the skills necessary to foster a successful and ongoing career.

Obtaining employment is ultimately the responsibility of the alumni. Alumni are highly encouraged to pursue their own independent employment opportunities. Recent alumni who have yet to obtain employment in their field of study should contact the College about available job openings in their community.

Pursuant to accreditation requirements, the College will confirm employment of alumni by contacting both the employer and alumni. The College cannot guarantee employment or salary.

CAREER FAIRS
Hondros College of Nursing seeks to assist students and alumni in making informed career decisions and partner with employers to maximize recruiting results. To accomplish these goals, the College offers quarterly career fairs hosted at each campus. These events are offered exclusively to the Hondros College of Nursing students/alumni and provide a variety of networking opportunities.

ONLINE JOB BOARD
Career partners have the ability to post jobs directly through the Hondros College of Nursing website. These job postings appear in the Student Portal for all students. In addition, continued access to current job postings will be available for alumni via the Student Portal. Therefore, students will have ongoing access to current positions with our career partners.

LAB RESOURCES
The nursing skills lab and the science lab are available for student practice during open lab times. These times will be posted in the laboratory. Students may seek additional help during these times. Students may also seek additional help of the Nursing Laboratory Manager by appointment.

LIBRARY SERVICES
The College provides a completely online library collection. Students are able to research multiple databases and find up-to-date information by accessing the online resources and periodicals. The online library is available through the Student Portal.

TRANSCRIPT REQUEST
Requests for official transcripts must be made in writing and submitted to the Student Accounts office, along with applicable processing fees. The transcript request form can be found on the College's website, or on the Student Portal. There is a $15 fee for each request. Students with an outstanding balance will not be issued a transcript.

PRINTING SERVICES
Through the Student Portal, students have access to a printing service called PaperCut. PaperCut conveniently allows students to print from their laptop to the campus printer. A nominal fee applies.
STUDENT PARKING
Every campus offers free parking to Hondros College of Nursing students. Students must park in designated school parking spaces and adhere to regulations regarding handicapped and special parking. Violators will be towed at the owner’s expense. The College is not responsible for lost or stolen items.

Students attending clinical may be required to obtain an additional parking pass. Students are responsible for any parking expenses and fees incurred while attending the College or any off-campus locations related to their education at the College.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)
The Family Educational Rights and Privacy Act (FERPA) afford eligible students certain rights with respect to their education records. (An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution.) These rights include:

1. The right to inspect and review the student’s education records within 45 days after the day Hondros College of Nursing receives a request for access. A student should submit to the Registrar a written request that identifies the record(s) the student wishes to inspect. The College official will make arrangements and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A student who wishes to ask the College to amend a record should write the College official responsible for the record, clearly identify the part of the record the student wants to be changed, and specify why it should be changed.

If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the College discloses personally identifiable (PII) information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

STUDENT DIRECTORY
Directory information is defined as information which would not generally be considered harmful or an invasion of privacy if disclosed. The College has designated the following information to be considered directory information:

1. Name
2. Address
3. Telephone number
4. E-mail (college issued)
5. Dates of attendance
6. Enrollment status
7. Graduation date and anticipated graduation date
8. Diploma/Degrees and awards received
9. Photo
Students should contact the Registrar’s Office at registrar@hondros.edu to elect to withhold the release of their directory information or to remove a hold placed on the release of their directory information.

EQUAL OPPORTUNITY STATEMENT
Hondros College of Nursing declares and affirms a policy of equal employment opportunity, equal educational opportunity, and non-discrimination, where applicable, in the provisions of educational services to the public. No individual is excluded from participation in or denied benefits of programs and employment-related opportunities at the College on the ground of race, color, religion, national origin, gender, age, physical or mental handicap, sexual orientation, gender identification, gender expression, or veteran or military status. The College will fully comply with all laws and regulations to guarantee equal opportunities.

Prospective students seeking a reasonable accommodation for admissions testing must contact the Executive Vice President, Business Strategy & Regulatory Compliance for approval.

Persons who believe they have not been afforded equal treatment in accordance with this policy should contact the Campus Executive Director. All complaints of unequal treatment will be fully investigated and corrective action will be taken when necessary.

AMERICANS WITH DISABILITIES ACT (ADA)
Hondros College of Nursing is committed to providing educational services to students with disabilities as required by the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973 (both as amended). Hondros College of Nursing will provide reasonable accommodations for qualified students with disabilities.
To be eligible for a reasonable accommodation (or academic adjustment), the student must have:

1. A disability (as defined by applicable law) that substantially limits a major life activity and subsequently necessitates an accommodation;
2. Documentation on file with Hondros College of Nursing that supports the need for the requested documentation; and
3. Medical documentation that substantiates the disability and how the accommodation will assist the student.

Qualified students with disabilities seeking reasonable accommodations are responsible for initiating contact with the Campus Dean/Director of Nursing or designee to request an appropriate reasonable accommodation. Essential program outcomes, course objectives, and/or skill competency achievement standards cannot be substantially lowered, waived, or otherwise modified as accommodations. Any modifications in the manner in which a course, lab, and/or clinical is conducted are restricted to changes in the format of instruction or evaluation. Such modifications must not substantially lower the essential academic standards or modify basic content of the course, lab, and/or clinical.

No accommodations may be made prior to the notification of disability and the submission of documentation. Students must identify themselves to the Campus Dean/Director of Nursing or designee and provide the required documentation at least 30 days in advance of the start of the accommodation being requested. It is the student’s responsibility to ensure that documentation meeting the published requirements is submitted 30 days prior to the start of the accommodation(s).

If the accommodations provided are not meeting the student’s needs, it is the student’s responsibility to notify the Campus Dean/Director of Nursing or designee as soon as possible.

SEXUAL AND OTHER HARASSMENT
The College supports the right of all students to attend class in an environment free of sexual and other discriminatory harassment. Sexual harassment and harassment on the basis of race, color, religion, national origin, gender, age, physical or mental handicap, sexual orientation, gender identification, gender expression, or veteran or military status, is strictly prohibited and will not be tolerated.

Any student who feels that he or she is a victim of harassment should immediately report the matter to Dr. Jeremy Hoshor-Johnson, Executive Vice President, Business Strategy & Regulatory Compliance at jhoshor-johnson@hondros.edu. Hondros College of Nursing’s policy is to treat any allegations of harassment seriously, and to respond to any legitimate allegation in a timely and confidential manner. Any kind of retaliation is strictly prohibited. The Title IX and Sexual Discrimination federal regulations may be accessed at https://www2.ed.gov/about/offices/list/ocr/docs/tix_dis.html.
SAFETY & EMERGENCY PROCEDURES
Safety and security of students, faculty, and staff is a top priority. When an emergency situation arises, students are expected to fully cooperate. The following information should be used as a guide to emergency best practices:

If a problem appears to be life threatening or could cause immediate damage to the property, please contact the police or fire department immediately by dialing 911 from a cellular phone, or by dialing 0-911 from an on-campus phone. Report the incident to the Campus Executive Director or a faculty member immediately.

BUILDING SAFETY:
• If the building requires evacuation, all persons will evacuate the building in a quick and orderly manner. No persons will be allowed re-entry until administrators or emergency personnel give the all-clear.
• Outside doors must remain closed and at no time should be propped open.

PERSONAL SAFETY:
• Do not bring valuables to clinical area. Lock belongings in the trunk of your car, out of clear view.
• Do not leave personal belongings in an unsecured place. All unattended belongings will be taken to the Campus Executive Director’s office.
• Notify campus personnel of any accident, theft, or injury in order to complete an incident report.
• Request an escort to parking after hours or after dark.
• Report suspicious persons to security, faculty, or campus personnel.

WEATHER EMERGENCIES:
In the event of a tornado warning, all persons will proceed to the following areas in a quick and orderly fashion:
• Under stairwells.
• Interior corridors.
• Interior rooms of any campus facility.

STUDENT INJURY OR ILLNESS
Students are responsible for all expenses that occur due to an injury, accident, or illness at either the campus or the clinical site. The College is not responsible for any medical expenses. If a student becomes ill during class or while in the lab, it is the responsibility of the faculty member to assess the illness, and together with the student, determine an appropriate course of action. In the event that the student does not feel he or she can remain in class, he or she should seek treatment from a physician. The College reserves the right to request documentation of the doctor’s visit.

If a student becomes ill during an exam or skills check-off, the student shall notify the faculty member proctoring the exam. In case of injury or exposure to infection, the student must follow the agency’s protocols. If emergency treatment is needed, the student may elect to go to the emergency room for treatment, or to their own healthcare provider.

Students who become ill during clinical experiences must report to the clinical instructor immediately. All agency policies related to student illness, accident, or injury will be followed. Students will be able to see the healthcare provider of their choice, as the College does not provide a campus health center.

INFESTATION POLICY
Students must be aware of the growing community health concern of infestations. If the student observes any type of parasitic pest in a clinical setting, he or she must immediately notify his or her clinical faculty. Students will remain at the clinical site and follow the facility’s procedure for infestation treatment unless the clinical facility requests the students leave the facility. Students need to notify the Campus Executive Director or the Campus Dean/Director of Nursing if any parasitic pests are observed while on campus. The College will take appropriate measures to treat the infestation. The College is not responsible for any student expenses incurred from any exposure to an infestation outbreak during clinical or on campus.

CRIME AWARENESS
The following information is provided and updated annually as directed by the U. S. Department of Education through Public Law 101-542, the “Criminal Awareness and Campus Security Act of 1990.”
CAMPUS SECURITY

REPORTING OF CRIMINAL INCIDENT
The College strives to provide a safe and secure campus for all students and staff members. All students and staff members are encouraged to report any and all suspicious campus activity immediately upon witnessing the occurrence. Any knowledge of a criminal or suspicious nature should be reported to the Campus Executive Director; the College will then take appropriate action based upon the information given. When deemed appropriate, local law enforcement authorities will also be notified.

CAMPUS SECURITY PROCEDURES
The Hondros College of Nursing emergency management guide can be found on the Student Portal and the Hondros College of Nursing website. The campus security procedures and crime statistics are published annually. These can be found online at https://www.hondros.edu.
FINANCIAL SERVICES
Financial Aid
Financial aid is available to those that qualify. Students requesting to use Federal Financial Aid are required to complete the Free Application for Federal Student Aid (FAFSA®). Information provided on the FAFSA® is used to calculate the student’s Estimated Family Contribution (EFC), which is sent to the school electronically. The institution will use the EFC in combination with the Cost of Attendance (COA) to create awards for each student. Students may view and accept or decline their awards through the Student Portal. Financial aid disbursements occur throughout the term, generally beginning the third week of classes. Disbursements are made via a credit to a student's institutional account.

Completing the FAFSA
Students must complete the FAFSA® annually to be considered for continued financial aid eligibility. The FAFSA® serves as the application for all federal, state, and institutional financial aid at Hondros College of Nursing and can be completed electronically through FAFSA® online at http://fafsa.ed.gov. The FAFSA® application opens every year for completion beginning on October 1.

Data retrieval is the recommended process for entering tax information. Students will also need to enter the Hondros College of Nursing school code, 040743.

Signing the FAFSA® through an electronic signature is recommended. In order to sign electronically, the student (and parent if applicable) must apply for a FSA ID at https://studentaid.ed.gov/sa/fafsa/filling-out/fsaid.

The information reported on the FAFSA® is used to determine the Expected Family Contribution (EFC). After the FAFSA® has been processed, the student will receive a Student Aid Report (SAR). The student and/or family must review the SAR for accuracy and update the FAFSA® with any necessary corrections. Financial need is determined by subtracting the EFC from the Cost of Attendance.

The EFC is the foundation for all financial aid awards. Students with a valid FAFSA on file will be awarded their maximum eligibility. Hondros College of Nursing students may view their awards through their Student Portal. Student aid is disbursed quarterly. Students must complete all required paperwork and accept or decline awards prior to disbursement.

Financial Need
Financial need is based on the following formula:

Cost of Attendance (Direct and Indirect Costs) – Expected Family Contribution (EFC) = Financial Need

Direct Costs: Tuition, fees, books and supplies.

Indirect Costs: Transportation, personal expenses and room and board.

Expected Family Contribution (EFC): EFC is determined by a federally defined formula using information you provide on your Free Application for Federal Student Aid (FAFSA®).

General Eligibility for Federal Programs
In order to qualify for federal financial assistance*, you must:

- Enroll as a degree-seeking student
- Be a U.S. citizen or an eligible noncitizen
- Demonstrate financial need for need-based aid programs
- Maintain satisfactory academic progress
- Not be in default on a federal educational loan
- Not owe a refund on a federal educational grant
- Register with Selective Service (if you are a male born on or after January 1st, 1960, or over 18 years of age and not currently in the armed forces)
- Have a high school diploma or equivalent

*Financial aid is available for those who qualify.
FEDERAL STUDENT AID PROGRAMS

FAFSA®, Direct Loans, and the Direct Loan Program are registered trademarks of the U.S. Department of Education. There are three categories of federal financial assistance:

- Grant – aid that does not need to be repaid.
- Loan – aid that must be repaid, but generally not until the students have graduated, enroll less than half time, or stop attending school.
- Work-study – wages for part-time, educationally related, student or community-service employment.

FEDERAL PELL GRANTS

Federal Pell Grants help fund post-secondary education for undergraduate students who have not previously earned a bachelor's degree. The amount of Federal Pell Grant funds you may receive over your lifetime is limited by federal law to be the equivalent of six years of Pell Grant funding. Since the maximum amount of Pell Grant funding you can receive each year is equal to 100%, the six-year equivalent is 600%. For many students, these grants provide a foundation of financial aid to which aid from other sources may be added.

Pell Grant-eligible students who have Title IV funds awarded in excess of school charges are eligible for a refund. (Effective July 1, 2016, all students awarded Title IV funds in excess of school charges are eligible for a refund.) The refund should be made by the seventh day of class to obtain books and supplies. HCN meets this requirement by refunding the student his or her Title IV credit balance by the seventh day of class.

If a student has not yet established eligibility to receive Title IV funds because of outstanding verification requirements, or unresolved conflicting information, etc., this requirement does not apply. For further information, contact Nursing Student Accounts.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS (FSEOG)

Federal Supplemental Educational Opportunity Grants (FSEOG) provide supplemental funds to undergraduate students with exceptional need, with priority given to Federal Pell Grant recipients. To be eligible for FSEOG, students must be enrolled in an undergraduate program and have not previously earned a bachelor's degree or first professional degree. Exceptional need is defined as the lowest EFC per federal-need-analysis methodology. Because FSEOG funds are limited, students should apply for these grants by completing their FAFSA® as early as possible. FSEOG awards range from $480 to $900 per academic year.

FEDERAL DIRECT LOANS®

Direct Subsidized, Direct Unsubsidized and Direct PLUS Loans obtained through the Direct Loan Program® are acquired directly from the U.S. Department of Education. Students who receive a student loan of any type have a legal obligation to repay the loan. The student's degree of success at Hondros College of Nursing does not alter this obligation. Terms and conditions of Federal Student Loans (Direct and Direct PLUS Loans) are listed on the Master Promissory Note signed by the borrower accepting the loan. To view a sample Master Promissory Note, go to https://studentloans.gov/myDirect-Loan/subUnsubHTMLPreview.action

Institutions are required to inform the student or parent that Direct Stafford loans will be submitted to the National Student Loan Data System (NSLDS), and will be accessible by the student/parent, guaranty agencies, lenders, and institutions determined to be authorized users of the data system.

As required by the Higher Education Opportunity Act, HCN has established and abides by a Title IV Code of Conduct. The following link provides HCN’s Title IV Code of Conduct: http://www.hondros.edu/how-to-pay/financial-aid-programs.html.

FEDERAL DIRECT SUBSIDIZED & FEDERAL DIRECT UNSUBSIDIZED LOANS

Undergraduate students may be eligible for the Direct Loan Program. These are low-interest loans that offer a range of flexible repayment options. Repayment can also be deferred while the student is enrolled at least half-time. Loan amounts are based on a number of factors, including the number of credit hours taken each term and grade level as follows:
<table>
<thead>
<tr>
<th>Credits Earned</th>
<th>Loan Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 35</td>
<td>Freshman Level Loan Limits</td>
</tr>
<tr>
<td>36 – 71</td>
<td>Sophomore Level Loan Limits</td>
</tr>
<tr>
<td>72 or more</td>
<td>Junior and Senior Level Loan Limits</td>
</tr>
</tbody>
</table>

• Federal Direct Subsidized Loans: Available to undergraduate students who demonstrate financial need and otherwise meet the eligibility criteria. The federal government pays the interest on the loan while the student continues to be enrolled at least half time, and while not exceeding the 150% subsidized loan eligibility requirement.

• Federal Direct Unsubsidized Loans: Available to undergraduate and graduate students, regardless of financial need. The student is responsible for the interest accrued on the loan. The student may allow the interest to accumulate over the loan period, but Hondros College of Nursing suggests that the student pay the interest while in school.

The amount borrowed may not exceed the cost of attendance minus other aid per academic year. The aggregate limit for dependent students is $31,000, up to $23,000 of which can be Federal Direct Subsidized Loans. The limit for independent students (and dependent students whose parents cannot borrow a Federal Direct PLUS Loan) is $57,500, up to $23,000 of which can be Federal Direct Subsidized Loans.

Students requesting to use Direct Loans will be required to complete a Master Promissory Note (MPN) and Entrance Counseling (EC), if they are first-time borrowers. Both can be completed at https://studentloans.gov/myDirectLoan/index.action.

Students begin repaying the loan after ceasing to be enrolled at least half time. Additional information on repayment, interest rates and loan fees for Federal Direct Loans is available at https://studentaid.ed.gov/types/loans/interest-rates. Monthly payments are based on aggregate borrowing, though the minimum monthly payment is $50 for each loan. Repayment is usually completed within 10 years. Students who leave school or drop below half-time status are contacted by their loan servicer to establish repayment schedules. Students must notify the college and their lender of a change in address.

**LOAN EXIT COUNSELING**

Federal student aid regulations require that all borrowers complete loan exit counseling for their Federal Direct Loans. Students must complete loan exit counseling when they are graduating, leaving Hondros College of Nursing, or enrolling for fewer than six credit hours. Loan exit counseling notifications are provided to all identified students, and students may visit http://studentloans.gov to complete the process.

**FEDERAL DIRECT PLUS LOANS**

This loan allows parents of undergraduate students who are dependent by federal definition to borrow the maximum of educational costs less financial aid per academic year (3 quarters). Additional information on interest rates and loan fees for Federal Direct Loans is available at https://studentaid.ed.gov/types/loans/interest-rates. A credit check is performed to establish creditworthiness. Any credit refund created by a Federal Direct PLUS loan will be paid to the parent.

**FEDERAL WORK-STUDY (FWS)**

FWS allows students who demonstrate financial need to earn a portion of their educational expenses. Students must complete the FAFSA® to be considered for FWS funds. In this program, students earn at least the current hourly minimum wage by working at Hondros College of Nursing or in community service roles. Certain restrictions apply.

**STATE-FUNDED PROGRAMS**

In addition to federal financial assistance, state programs may be available to students who demonstrate financial need or who have successfully achieved certain academic qualifications. Typically, state recipients must attend an institution in their home state, and they or their parents must have resided in the state for a specified period of time. Proof of residency is usually required. The application for the State of Ohio is the FAFSA. https://www.ohiohighered.org/students/pay-for-college
HONDROS COLLEGE OF NURSING ALUMNI ACHIEVEMENT GRANT

This Alumni Achievement Grant is designed to assist Hondros College of Nursing Alumni as they progress into our Associate Degree in Nursing (ADN) program.

Basic Student Eligibility Requirements:
1. Eligible students must be graduates of a Hondros College of Nursing program; and
2. Eligible students must be enrolled in the Hondros College of Nursing ADN program (at any campus).

Awarding Criteria:
1. Grant amounts are determined based on CGPA*:

<table>
<thead>
<tr>
<th>Prior to Fall 2018 - Min. 6 credits &amp; Min. C in all courses</th>
<th>Beginning with Fall 2018</th>
</tr>
</thead>
<tbody>
<tr>
<td>Award Amount</td>
<td>Hondros College of Nursing CGPA*</td>
</tr>
<tr>
<td>Up to $500</td>
<td>2.50 - 2.74</td>
</tr>
<tr>
<td>Up to $1,000</td>
<td>2.75 - 2.99</td>
</tr>
<tr>
<td>Up to $1,500</td>
<td>3.00 - 4.00</td>
</tr>
</tbody>
</table>

2. Awards will be equally distributed per term as follows:
   a. ADN program – over a maximum of 5 (five) terms
3. ADN students must be enrolled in 6 (six) or more credit hours to be eligible for a disbursement each term; AND
4. Students must successfully complete all courses with a minimum grade of “C” and a cumulative GPA of 2.5 or better to maintain continued eligibility

*CGPA - Cumulative Grade Point Average

Hondros College of Nursing Institutional Affordability Grant (IAG)

This Institutional Affordability Grant (IAG) is designed to assist Hondros College of Nursing (the “College”) students that have financial need in order to cover their gap funding, i.e., the difference between total cost of tuition and fees (direct) less the amount of all eligible financial aid resources. The IAG will be applied quarterly to a student’s ledger. The IAG is for students with the most significant financial need.

Basic Student Eligibility Requirements:
1. Eligible students must be currently enrolled in a Hondros College of Nursing program;
2. Eligible students must be eligible for the Federal Pell Grant (regardless of amount) and otherwise be eligible for Title IV financial aid programs;
3. Eligible students must file a FAFSA each year by the deadline and meet verification deadlines, if any;
4. Eligible students must make required monthly on-time payments to the College; and
5. Eligible students must have exhausted all other eligible financial aid resources (e.g., WIA, employer tuition reimbursement, veterans’ affairs benefits, etc.)
Awarding Criteria:

1. Grant amounts are determined based on financial need.

<table>
<thead>
<tr>
<th>Award Amount</th>
<th>Hondros College of Nursing IAG</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to $600.00 per academic term</td>
<td>Practical Nursing Program – IAG award is up to a maximum of $200.00 per month/$600.00 per academic term/$2,400.00 for the program.</td>
</tr>
<tr>
<td>Up to $600.00 per academic term</td>
<td>Associate Degree in Nursing Program – IAG award is up to a maximum of $200.00 per month/$600.00 per academic term/$3,000.00 for the program.</td>
</tr>
</tbody>
</table>

a. Example of potential IAG awards:

i. Practical Nursing Program
   1. Student has a program gap of $4,500.00. Monthly payments are $375.00 ($4,500.00/12 months (program length)). IAG award is $175.00 per month for 12 months = $2,100.00. Revised student payment is $200.00 per month.
   2. Student has a program gap of $4,800.00. Monthly payments are $400.00 ($4,800.00/12 months (program length)). IAG award is $200.00 per month for 12 months = $2,400 (maximum IAG award). Revised payment amount is $200 per month.

ii. Associate Degree in Nursing Program
   1. Student has a program gap of $3,750.00. Monthly payments are $250.00 ($3,750.00/15 months (program length)). IAG award is $50.00 per month for 15 months = $750.00. Revised payment amount is $200.00 per month.
   2. Student has a program gap of $6,000.00. Monthly payments are $400.00 ($6,000.00/12 months (program length)). IAG award is $200.00 per month for 15 months = $3,000 (maximum IAG award). Revised payment amount is $200.00 per month.

PRIVATE EDUCATION LOANS

Many lenders also offer private education loans to students to supplement their federal financial aid. Terms of repayment, including interest rates, vary by loan. Lenders perform a credit check and determine a loan applicant’s creditworthiness before approving these loans. A loan applicant may also be required to provide a credit-worthy co-signer. The following link provides more information on private education loans. https://www.hondros.edu/how-to-pay/financial-aid-programs.html

VETERANS’ BENEFITS

Students who may qualify for veterans’ educational benefits should notify their financial aid representative regarding eligibility as far in advance of their scheduled class start date as possible. On December 31, 2018, the President signed into law the Veterans Benefits and Transition Act of 2018. It contains a provision (Section 103) that takes effect on August 1, 2019. Therefore, despite any policy to the contrary, for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while payment to the institution is pending from the VA, Hondros College of Nursing will not: prevent a veteran student’s enrollment; impose any penalty fee to a veteran student; require a veteran student to secure alternative or additional funding; or deny a veteran student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution. However, to qualify for this provision, veteran students may be required to: produce the VA’s Certificate of Eligibility by the first day of class; provide written request to be certified; or provide additional information needed to properly certify the enrollment as described in other institutional policies.

For the purpose of certifying Veterans Affairs (VA) benefits, students are required to submit all previous transcripts. Veteran students enrolled in a course in which they are eligible to receive transfer credit will not have that course included in the total hours reported to the U.S. Department of Veterans Affairs. It is the student’s responsibility to be aware of prior credit eligible for transfer.

Hondros College of Nursing notifies the Department of Veterans Affairs of those students who are receiving veterans’ education benefits and whose status is academic probation. For details on standards of academic progress, refer to the Academic Standing Status Policy section of this catalog. Student on academic probation are eligible to receive veterans’ education benefits for that quarter.
A student who has been dismissed for failing to meet standards of academic progress may appeal for reinstatement. Those with approved appeals remain eligible for veterans' educational benefits. Students who do not successfully appeal their dismissals are dismissed and have their veterans benefits terminated. The VA is notified of such dismissals. If the veteran or eligible person continues in training despite unsatisfactory progress, conduct, or despite having failed to meet the regularly prescribed standards of attendance at the school, the school must report the fact of his or her unsatisfactory progress. Veteran's benefits will not be denied to the student.

Veteran students must notify a Student Finance Advisor immediately upon withdrawal from school. For students receiving veterans' education benefits, Hondros College of Nursing notifies the VA of changes in student status within 30 days of the official last date of attendance.

**EMPLOYER TUITION REIMBURSEMENT**

Students eligible for employer tuition reimbursement benefits should contact their employer or human resources department. Tuition reimbursement does not eliminate a student's responsibility to pay tuition. Students receiving tuition reimbursement are required to disclose to the college the benefit and the amount as is must be considered as Estimated Financial Assistance.

**DEPENDENCY STATUS**

The federal government has established how dependency status is determined for federal financial aid purposes. If a student is considered a dependent, his or her parents' income and asset information must be included on the FAFSA®. This information will be used in addition to the student's income and asset information to determine the EFC.

**VERIFICATION**

The federal government requires some federal student aid applicants to verify the accuracy of information on their FAFSA®. In accordance with federal requirements, Hondros College of Nursing requires students to submit verification documents prior to disbursement of funds. Students and their spouses or parents may be required to submit a verification worksheet, federal tax return transcripts and additional information necessary to complete verification or clear conflicting information.

If information on any documents is found to be conflicting, students may be selected for verification and required to provide additional information. Failure to complete verification may result in a loss of financial aid eligibility.

If Hondros College of Nursing suspects that an individual falsified information and/or altered documentation and fraudulently obtained federal funds, Hondros College of Nursing is legally obligated to file a report with the Office of the Inspector General and/or local law enforcement officials.

**PROFESSIONAL JUDGEMENT**

Based upon the receipt and review of specific documentation, financial aid may exercise Professional Judgement and make adjustments that effect student's financial aid eligibility. Professional Judgement is the ability of financial aid to make adjustments to a student's aid eligibility on a case by case basis. The adjustments may be made to the cost of attendance, to a data element required to calculate the student's expected family contribution (EFC) or to dependency status.

All professional judgment requests require a Special Circumstance form and supporting documentation. Please contact your campus financial aid representative for additional information.

**FEDERAL STUDENT AID STATUS FOR INCARCERATED INDIVIDUALS**

Currently incarcerated individuals have limited eligibility for federal student aid. Applicants who are incarcerated and students who become incarcerated must report this information to the Campus Executive Director.
NOTICE OF FEDERAL STUDENT FINANCIAL AID PENALTIES FOR DRUG LAW VIOLATIONS

Disclosure Requirement: Made available to students and families in print or other medium HEOA Sec. 488(g): amended HEA Sec. 485 (20 U.S.C. 1092): added HEA Sec. 485(k)

HEOA amendments effective August 14, 2008

FR notice (CFR 668.40)

A federal or state drug conviction can disqualify a student from federal financial aid funds.

A conviction for any offense under any federal or state law involving the possession or sale of illegal drugs, during a period of enrollment when receiving federal aid, will result in the loss of eligibility for any Title IV, HEA grant, loan, or work study assistance. A conviction that was reversed, set aside, or removed does not count, nor does one received as a juvenile, unless tried as an adult.

The chart below illustrates the period of ineligibility for federal financial aid programs. Please note that eligibility is dependent upon the nature of the conviction and the number of prior offenses.

<table>
<thead>
<tr>
<th></th>
<th>Possession of Illegal Drugs</th>
<th>Sale of Illegal Drugs</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Offense</td>
<td>1 year from date of conviction</td>
<td>2 years from date of conviction</td>
</tr>
<tr>
<td>2nd Offense</td>
<td>2 years from date of conviction</td>
<td>Indefinite Period</td>
</tr>
<tr>
<td>3+ Offenses</td>
<td>Indefinite Period</td>
<td>Indefinite Period</td>
</tr>
</tbody>
</table>

Pursuant to federal law, a conviction for the sale of drugs includes convictions for conspiring to sell drugs. Moreover, those students convicted of both selling and possessing illegal drugs will be subject to ineligibility for the longer period as prescribed under the circumstances.

A student regains eligibility the day after the period of ineligibility ends or when the student successfully completes a qualified drug rehabilitation program. Further drug convictions will make the student ineligible again for federal financial aid programs.

Students denied eligibility for an indefinite period can regain it only after successfully completing a rehabilitation program as described below. Furthermore, eligibility can be regained if a conviction is reversed, set aside, or removed from the student’s record so that fewer than two convictions for the sale or three convictions for the possession of illegal drugs remain on the student’s record. In such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility. It is the student’s responsibility to certify to the College that a qualified drug rehabilitation program has been completed.

For purposes of financial aid eligibility, a qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state, or local government program.
- Be qualified to receive payment directly or indirectly from a federally or state licensed insurance company.
- Be administered or recognized by a federal, state, or local government agency or court.
- Be administered or recognized by a federally or state-licensed hospital, health clinic, or medical doctor.

For more information regarding illegal drug convictions and financial aid eligibility, please visit the Frequently Asked Question section of the Free Application for Federal Student Aid (FAFSA) website www.fafsa.ed.gov.

UNUSUAL ENROLLMENT HISTORY (UEH)

The U.S. Department of Education has established regulations to prevent fraud and abuse in the Federal Student Aid program by identifying students with unusual enrollment histories. Some students who have an unusual enrollment history have legitimate reasons for their enrollment at multiple institutions. However, such an enrollment history requires
our office to review your file in order to determine future federal financial aid eligibility. If selected by the Department of Education, this must be resolved before you will be eligible to receive financial aid.

Definition of UEH
The specific pattern the Department of Education uses to select students includes those students who have received a Federal Pell Grant and/or Federal Loans at multiple institutions during the past four academic years. Once the Department of Education indicates that a student has an unusual enrollment history, the Office of Student Financial Aid must review the academic history prior to determining federal financial aid eligibility for that student.

Students with an unusual enrollment history will have one of the following UEH flags and C codes on their ISIRs (Institutional Student Information Records), which is the school version of the SAR (Student Aid Report) issued by the Department of Education upon completion of the processing of your FAFSA®.

Appeal Process and What Will be Required of You
If selected, you will be notified of the requirements associated with the process. You are required to have earned academic credit at every institution where you received a Federal Pell Grant or Federal Direct Subsidized/Unsubsidized loan while attending in those relevant academic years. Our office will review your Unusual Enrollment History Form and your financial aid history at all previous institutions that you attended during the last four financial aid years (please ensure we have received all official/unofficial transcripts for those schools) and verify that academic credit was received at each institution during the relevant years. If you failed to earn academic credit at any institution where you received a federal Pell Grant or Federal Direct Subsidized/Unsubsidized loan during the relevant award years, you will need to provide a statement explaining the circumstance for credit not earned along with any relevant documentation using the Unusual Enrollment History Form. The results of the appeal will be emailed to your Hondros College of Nursing email account (or personal email account from your FAFSA® if you do not have a college email account). These decisions are final and are not appealable to the Department of Education.

Regaining Federal Student Aid Eligibility
Students that have been denied federal student aid based on an Unusual Enrollment History Appeal have the ability to regain financial aid eligibility by successfully completing one quarter at Hondros College of Nursing with a 2.0 or better GPA. Upon successful completion of one quarter, you may submit another Unusual Enrollment Appeal.

COST OF ATTENDANCE
Cost of attendance calculates the overall cost for a student to attend an institution. These numbers include tuition, fees, books, transportation, housing allowance, and personal fees. The Cost of Attendance is used when calculating student eligibility, and a student may not exceed the cost of attendance for an academic year.

PN:
| Tuition & Fees          | $14,071 |
| Textbooks and Supplies  | $2,291  |
| Housing & Food          | $6,843  |
| Personal/Miscellaneous  | $1,986  |
| Transportation          | $2,238  |
| TOTAL                   | $27,429 |

ADN:
| Tuition & Fees          | $15,732 |
| Textbooks and Supplies  | $2,871  |
| Housing & Food          | $6,843  |
| Personal/Miscellaneous  | $1,986  |
| Transportation          | $2,238  |
| TOTAL                   | $29,670 |
NET PRICE CALCULATOR (NPC)
HCN's Net Price Calculator (NPC) provides an early estimate of:
1. The expected cost to attend HCN, and
2. How much financial aid you may qualify for.
The NPC is a very valuable financial planning tool. The NPC is an estimation tool, not an application for admission or an application for financial aid.

SATISFACTORY ACADEMIC PROGRESS (SAP) POLICY
Hondros College of Nursing has academic standards that a student must achieve to remain in good academic standing. Additionally, to participate in federal financial aid programs (Federal Stafford Student Loans, Federal PLUS Loans, Federal Pell Grants, and Federal Supplemental Educational Opportunity Grants), Hondros College of Nursing must take steps to fulfill federal requirements to implement and make public the standards for satisfactory academic progress that students must meet to be eligible to receive financial aid. These standards are for financial aid purposes and are a part of the academic policies of Hondros College of Nursing.

Satisfactory Academic Progress (SAP) is based on three components:

1. SAP Cumulative GPA Requirement
Students must achieve a minimum cumulative grade point average of a 2.0 at the end of each quarter. Please refer to the repeat policy.

   • Repeated courses and failed courses will also count towards the cumulative GPA.
   • Students that do not meet the minimum cumulative GPA of a 2.0 for the second time will be academically dismissed from the College in accordance with the College’s academic dismissal policy, and must formally apply to be reinstated.

2. Pace of Progression
Students must satisfactorily complete 67% of all attempted credits to accomplish pace of progression and be considered as meeting this element of satisfactory academic progress. Pace of progression is calculated by dividing the cumulative total credit hours earned by the cumulative total credit hours attempted. Pace of progression will be evaluated at the end of each quarter. Attempted hours will include grades of F, W, I, and NP, but, these grades will not count as earned hours. Transfer credit received will be included in both the attempted and earned credit hours.

   • Repeating courses will add to the total number of attempted hours but will only count as earned hours when a passing grade is received.
   • Students cannot repeat a course(s) they have previously passed to simply improve their cumulative grade point average (CGPA).

<td>12</td>
</tr>
<tr>
<td>21</td>
<td>21 x .67</td>
<td>14</td>
</tr>
</tbody>
</table>

3. Maximum Timeframe
Students must be able to complete their program within the maximum timeframe in order to be considered as meeting satisfactory academic progress. Maximum timeframe is defined as graduating before accumulating 150% of the attempted credit hours required for completion. Maximum timeframe will be evaluated at the end of each quarter. Students who are identified as not meeting satisfactory academic progress due to maximum timeframe may be dismissed from the College.

   • Maximum timeframe by program:
      ◦ Ohio - PN Program must be completed within 72 attempted credit hours
Ohio - ADN Program must be completed within 164 attempted credit hours
Indiana - PN Program must be completed within 74 attempted credit hours
• Transfer credit hours must be included in the maximum timeframe calculation.
• Repeated courses, failed courses and withdrawals will also count towards the maximum.

Additional Credential
General education courses and advanced standing credit previously earned at Hondros College of Nursing are counted as transfer credit as applicable in the subsequent program and therefore affect the student’s pace of progression (both attempted and earned credits) and maximum timeframe calculations.

SAP Review
At the end of each quarter, the Registrar’s Office and the Student Financial Services Office review cumulative GPA, pace of progression, and maximum timeframe for each student enrolled in that quarter. Depending on the student’s status relative to these factors, the student’s progress for academic standing and financial aid purposes will be determined as follows:
1. Good Standing: Applies to any student who met the 2.0 cumulative GPA requirement, met pace of progression (67%), and has not exceeded the maximum total attempted hours allowed for their program.
2. Financial Aid Warning: Applies to any student who fails to meet the requirements of pace of progression, cumulative GPA, and/or timeframe listed above for the quarter. A warning letter will be sent at the end of the quarter to the student to indicate why he or she is receiving a warning and what must be done within the next quarter to meet SAP. If the student fails to meet these requirements, his or her federal, state, and other types of financial aid will be suspended for future quarters. The student must bring his or her hours and/or cumulative GPA back into good standing to regain financial aid eligibility. A student cannot have two consecutive quarters on Financial Aid Warning.
3. Financial Aid Suspension: Applies to a student who has not met the requirements for cumulative GPA, pace of progression, or has reached maximum timeframe after the warning period. This student is not eligible for federal, state, and/or other types of financial aid until he/she meets the requirements in each of the three areas listed above or completes and is approved for a SAP Appeal.
4. Financial Aid Probation: Applies only to a student who has failed to meet SAP requirements and has had an appeal approved. A student may be on probation for one quarter only. If a student has not met the SAP requirements above, he or she should work with a Student Finance Advisor to understand what options exist to regain financial aid eligibility.
5. Financial Aid Academic Plan: This status applies to any student who is required to submit an academic plan as part of a SAP appeal. Student must meet all goals as outlined by the plan. The student continues to remain eligible for federal and state financial aid, but does not meet the definition of a SAP-eligible student. Students who do not meet all goals as outlined by the plan, at the least, will have their aid suspended and should work with a student finance advisor to understand what options exist to regain financial aid eligibility. Students that do not meet all goals as outlined by the plan may be academically dismissed from the college.

SAP Appeal Process
1. A student who wishes to appeal his/her unsatisfactory academic progress determination must submit a SAP Appeal Letter to his or her campus financial aid office. Guidelines for writing a successful SAP appeal and an example can be found on the Student Portal. SAP appeals are reviewed based on the extenuating circumstances such as serious injury or illness involving the student, death of an immediate family member, or other circumstances beyond the student’s control that prevented him or her from achieving satisfactory progress. Each student’s circumstance is reviewed on an individual basis. The student may be required to submit an academic plan indicating exactly what the student must take to complete their academic program, and detail the timeframe in which this can be accomplished. Academic Plans must be completed with a Campus Dean/Director of Nursing or designee and forwarded to your campus financial aid office.
2. A Student Finance Advisor will review the appeal and determine whether the financial aid termination is justified. To receive aid in a term subsequent to receiving a “Suspension” status, student must appeal by the end of week 8 of that subsequent term.
Appeals may take up to 14 days to process and students will be notified of the results of the appeal via their Hondros College of Nursing email account.

**Summary**

Students are encouraged to review these standards. It is important that the student have a clear understanding of his/her individual progress and financial assistance. The College recognizes that circumstances and conditions regarding these standards may require discretionary judgment. Examples of such conditions include changing majors or career objectives, as well as various personal reasons. Any questions regarding SAP or these conditions should contact their campus financial aid office.

**TREATMENT OF TITLE IV AID WHEN A STUDENT withdraws**

The law specifies how Hondros College of Nursing (HCN) must determine the amount of Title IV program assistance that you earn if you withdraw from school. The Title IV programs that are covered by this law are: Federal Pell Grants, Iraq and Afghanistan Service Grants, TEACH Grants, Direct Loans, Direct PLUS Loans, Federal Supplemental Educational Opportunity Grants (FSEOGs), and Federal Perkins Loans.

Though your aid is posted to your account at the start of each period, you earn the funds as you complete the period. If you withdraw during your payment period, the amount of Title IV program assistance that you have earned up to that point is determined by a specific formula. If you received (or HCN or parent received on your behalf) less assistance than the amount that you earned, you may be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned by HCN and/or you.

The withdrawal date is always the last day of attendance. The withdrawal date is also the date used for federal reporting and Return to Title IV, for official withdrawals and for unofficial withdrawals in which a student earns a passing grade in at least one course. For a student that fails to earn a passing grade in at least one course and is not documented to have completed the term, the withdrawal date is the midpoint of the term.

Students withdrawing from a single course or courses and not withdrawing from the college will have their financial aid recalculated for every course withdrawn based on enrollment status and disbursement dates. Withdrawing from one or more courses during a quarter may result in balance on your student ledger. If you have questions prior to withdrawing from a single course or courses please see your campus financial aid representative.

During an approved Leave of Absence, the student is not considered withdrawn and a federal financial aid Return of Funds Calculation is not required.

The amount of assistance that you have earned is determined on a pro rata basis. For example, if you completed 30% of your payment period, you earn 30% of the assistance you were originally scheduled to receive. Once you have completed more than 60% of the payment period or period of enrollment, you earn all the assistance that you were scheduled to receive for that period.

If you did not receive all of the funds that you earned, you may be due a post-withdrawal disbursement. If your post-withdrawal disbursement includes loan funds, HCN must get your permission before it can disburse them. You may choose to decline some or all of the loan funds so that you do not incur additional debt. HCN may automatically use all or a portion of your post-withdrawal disbursement of grant funds for tuition and/or fees. HCN needs your permission to use the post-withdrawal grant disbursement for all other school charges. If you do not give your permission, you will be offered the funds. However, it may be in your best interest to allow HCN to keep the funds to reduce your debt at HCN.

If you receive (or HCN or parent receives on your behalf) excess Title IV program funds that must be returned, HCN must return a portion of the excess equal to the lesser of:
1. Your institutional charges multiplied by the unearned percentage of your funds, or
2. The entire amount of excess funds.

HCN must return this amount even if it didn't keep this amount of your Title IV program funds.

If HCN is not required to return all of the excess funds, you must return the remaining amount. Any loan funds that you must return, you (or your parent for a Direct PLUS Loan) repay in accordance with the terms of the promissory note. That is, you must make scheduled payments to the holder of the loan over a period of time.
Any amount of unearned grant funds that you must return is called an overpayment. The maximum amount of a grant overpayment that you must repay is half of the grant funds you received or were scheduled to receive. You do not have to repay a grant overpayment if the original amount of the overpayment is $50 or less. You must make arrangements with your school or the Department of Education to return the unearned grant funds.

Title IV funds are returned electronically and the order for the return of Title IV funds is as follows:

1. Federal Direct Unsubsidized Loan
2. Federal Direct Subsidized Loan
3. Federal Direct PLUS Loan
4. Federal Pell Grant
5. Federal Supplemental Education Opportunity Grant (FSEOG)
6. Other Title IV aid programs

Students will be notified of their eligibility for a post-withdrawal disbursement within 30 days of HCN’s determination that the student withdrew. The student will have 14 days to respond to the notification. A student that does not respond or responds after 14 days will be considered to have not accepted the post-withdrawal disbursement offer. As soon as possible, but no later than 45 days after the date HCN determined the student withdrew, all unearned Title IV funds will be returned.

The requirements for Title IV program funds when you withdraw are separate from the HCN institutional refund policy. Therefore, you may still owe funds to HCN to cover unpaid institutional charges. HCN may also charge you for any Title IV program funds that the school was required to return.

If you have questions about your Title IV program funds, you can call the Federal Student Aid Information Center at 1-800-4-FEDAI (1-800-433-3243). TTY users may call 1-800-730-8913. Information is also available at https://www.studentaid.ed.gov.

**STUDENT RIGHTS & RESPONSIBILITIES**

Students have the right to:

• Know what financial assistance programs are available to them, including all federal, state, and institutional financial aid programs.
• Know the deadlines for submitting applications for each of the financial aid programs available, and the process required.
• Know the method and frequency of financial aid disbursements.
• Know how financial need is determined, including how costs for tuition and fees, room and board, travel, books and supplies, personal and miscellaneous expenses, etc., are considered in their budget.
• Know resources (such as parental contribution, other financial aid, assets, etc.) were considered in the calculation of need.
• Know how much of the financial need as determined by the institution has been met.
• Request an explanation of the various programs in your student aid package.
• Know the school’s refund policy, including what portion of the financial aid you received must be repaid, and what portion is grant aid. If the aid is a loan, students have the right to know what the interest rate is, the total amount that must be repaid, the payback procedures, the length of time they have to repay the loan, and when repayment is to begin.
• Know how the school determines whether students are making satisfactory progress (SAP), and consequences of not meeting SAP.
• Request a review of their current financial situation if they meet certain criteria based on changes since filing the current aid year FAFSA® application.

Students have the responsibility to:

• Be aware of the ability to pay any institutional charges based on your available financial aid and personal resources.
• Review and understand the terms and conditions of their financial aid award.
• Complete all requirements accurately, in a timely manner, and by the appropriate deadlines.
• Inform Hondros College of Nursing of any outside scholarships, tuition reimbursement, or additional resources that they receive.
• Fill out the FAFSA® application completely and accurately, provide all requested documents in a timely manner, and en-
sure that all submitted materials are complete and accurate. Falsification of information on application forms for federal financial assistance is considered a criminal offense and may be subject to penalties under the U.S. Criminal Code.

- Read, understand, and keep copies of all forms that they are asked to sign.
- Accept responsibility for all signed agreements.
- Be aware of and comply with all policies and procedures at Hondros College of Nursing.
- Be aware of the school’s refund procedures.
- Manage the financial aid experience
TUITION/FEES
TUITION AND FEES

Policies, tuition, fee, and charges are effective January 1, 2020 and are subject to change without prior notice. The College requires that tuition, textbooks, and fees be covered in full at the time of registration and no later than prior to the first day of classes. A student may use financial aid, and/or payment can be made by cash, check, and credit or debit card.

Cost of CPR, physical examination, and immunizations are not included in the above costs. These costs will vary depending upon the provider. Costs listed are estimated based on an average student. Books and other consumable costs may change. Tuition may be less depending on transferred course work. Tuition and fees are subject to periodic reviews and increases. Estimated costs do not include applicable tax.
APPLICATION FEE
A $25.00 application fee is required for each program upon application. The application fee is valid for one year from the date the application is signed.

DUPLICATE DIPLOMA/DEGREE FEE
There is a $15 fee for each duplicate diploma or degree. Students with an outstanding balance will not be issued a diploma or degree.

ENROLLMENT FEE
A $50.00 enrollment fee is required for each program upon signing the enrollment agreement. The enrollment fee is valid for the term in which the enrollment agreement is signed and the term immediately following, should a student cancel/defer their enrollment. Students signing a new enrollment agreement due to re-entry or reinstatement are required to pay an additional enrollment fee.

REPLACEMENT ID BADGE FEE
Lost ID badges will be replaced immediately. There is a $10 replacement cost for each badge.

RETURNED CHECK FEE & PAYMENT VERIFICATION HOLD
All returned checks are subject to a $30 Returned Check Fee. This fee charged is in addition to any fees charged by your bank or financial institution. Payments made by check for an amount of $500 or greater are subject to a payment verification hold period of five (5) business days before being applied to the student’s ledger.

TRANSCRIPT FEE
There is a $15 fee for each official transcript. Students with an outstanding balance will not be issued transcripts.

RIGHT TO CANCEL POLICY
A student who completes an enrollment agreement or application may cancel their enrollment at any time up through the end of the first calendar week of the student’s first enrollment quarter. A student that withdraws during the first calendar week of their first enrollment quarter will receive a refund of any tuition paid to the school. Refunds will be processed based on the student’s right to cancel section of the signed enrollment agreement. Books and technology fees are subject to the Bookstore Refund Policy.
REFUND POLICIES
OHIO STUDENTS:
Hondros College of Nursing’s refund policy complies with the state law as follows and is applicable to each term:

1. A student who starts class and withdraws or drops a single course(s) during the first full calendar week of the quarter shall be obligated for twenty-five percent (25%) of the tuition and refundable fees for that academic term, plus the registration fee.

2. A student who withdraws or drops a single course(s) during the second full calendar week of the quarter shall be obligated for fifty (50%) percent of the tuition and refundable fees for that period.

3. A student who withdraws or drops a single course(s) during the third full calendar week of the quarter shall be obligated for seventy-five (75%) percent of the tuition and refundable fees for that period, plus the registration fee.

4. A student who withdraws or drops a single course(s) beginning the fourth full calendar week of the academic term will not be entitled to a refund of any portion of the tuition and fees, plus the registration fee.

5. Refunds will be issued by check from Hondros College of Nursing within 30 days.

Last date of attendance is determined by the student’s last attended day of clinical, lab, lecture, or the last submitted assignment in an online course.

INDIANA STUDENTS:
Hondros College of Nursing shall cancel and all monies paid, if any, to be fully refunded.

1. Within six (6) days following the signing of the contract, no obligation and all monies paid, if any, to be fully refunded.
2. After six (6) days, but before the beginning of training, a registration fee of 20% of the total tuition not to exceed $100.00
3. After beginning of training, the registration fee, plus 10% of the total tuition until students completes 10% of the assignment.
4. After completing 10% of the assignments, but prior to completing 25% of the assignments, the registration fee plus 25% of the total tuition.
5. After completing 25% of the assignments, but prior to completing 50% of the assignments, the registration fee plus 50% of the total tuition.
6. After completing 50% of assignments, but prior to completing 75% of the assignments, the registration fee plus 75% of total tuition.
7. After completing 75% of assignments, the student is responsible for total tuition.
8. The contract shall state a length of time for a student to complete his course of study. If a student does not cancel by the end of such time, he is responsible for his total tuition.
9. The institution will make a proper refund, within thirty-one (31) days of the student's request for cancellation.
10. If the student has paid tuition extending beyond twelve (12) month all such charges shall be refunded as described in Rule 8.04 through 8.06 of these Rules and Regulations.

CREDIT BALANCE REFUND POLICY
All non-Title IV credit balances are applied to future term charges unless requested. Students with a credit balance after satisfying current term balance must email nursingstudentaccounts@hondros.edu to request a refund.

BOOKSTORE REFUND POLICY
The College does not participate in a buy-back program for textbooks or other required course material, including, but not limited to, the technology package. For products being returned, the item and all included materials must be returned in the original packaging in original condition, and must be accompanied by an original receipt and returned within 30 days of purchase. No refunds are given for the technology package if consumed. Refunds will be issued by check from Hondros College of Nursing within 30 days.

Policies, tuition, and fees are effective January 1, 2020 and are subject to change.
FINANCIAL CLEARANCE
Tuition and fees for the quarter are due and payable in full at registration. Details of payment options may be obtained from the student financial aid office.

All students must be financially cleared before registration. Financial clearance is defined as:
• Payment in full for the current quarter;
• A financial plan in place that is estimated to cover current costs in full; and
• Appropriate paperwork completed as defined by the financial aid office.

Students choosing to finance part or all of their education through a tuition payment arrangement must maintain a current payment status.

Students who do not comply with the above requirements may not be cleared to begin classes. In extreme circumstances, students may need to temporarily interrupt their education until appropriate payment arrangements are made.
ACADEMIC & CLINICAL INFORMATION
CLINICAL INFORMATION
The College strives to ensure that each student has excellent clinical learning experiences. This is a challenging goal in today’s competitive health care arena, in which clinical facilities are being asked to meet the needs of learners from a growing number of educational programs. Therefore, clinical times and locations may change from quarter to quarter.

Clinical assignments are to be treated as employment; professional, responsible behavior is mandatory. Failure to comply with professional standards or the Student Code of Conduct may result in disciplinary action, up to and including dismissal. Students must remain flexible and be prepared for clinical placement in a variety of settings and at a variety of times.

The College reserves the right to adjust clinical schedules to ensure seamless programming and accommodation of the clinical facilities and the nursing programs.

STUDENTS WILL NEED TO:
1. Have transportation.
2. Arrange child care, as applicable, including coverage for days, evenings and/or possible weekends.
3. Plan to travel up to 90 minutes one way to a clinical facility from the campus.
4. Arrive at the facility at least 10 minutes prior to the start of the clinical day.

CLINICAL REQUIREMENTS
The following items are required to be submitted and approved before the first scheduled clinical day for Term 1 ADN students. Continuing students are required to meet clinical eligibility by the quarter begin date (refer to the academic calendar) for each term in which they are registered for a course with a clinical component.

- Background check (reviewed and approved)
- CPR certification: American Heart Association, BLS provider only
- Complete Clinical Eligibility Packet, including records of current, up-to-date immunizations, seasonal flu vaccine, and annual TB testing (According to Center for Disease Control and Prevention [CDC] guidelines)

Prior to January 2020, Castle Branch was used for submission of health documentation. Starting January 2020, new students will use Viewpoint to submit health documentation. Re-entering students may be required to switch to Viewpoint, depending on their re-entry point in the program.

Additional requirements may vary according to a clinical agency agreement. Failure to be compliant by the quarter begin date (refer to the academic calendar) will result in the student being ineligible to attend clinical, which will result in a failing grade in the course.

PERFORMANCE OF NURSING CLINICAL SKILLS IN A CLINICAL SETTING POLICY
In general, skills performed by a student must be checked off in an on-campus lab prior to performing the skill in clinical. Students are not permitted to do any invasive procedures or administer medications without an instructor present. An invasive procedure is defined as entering the skin or body cavity.

1. All skills performed by a student must follow the policy and procedures of the facility and qualify as accepted safe practice.
2. No student is legally permitted to perform IV push medications.
3. Students scheduled for observation are not permitted to perform any procedures or administer medications.
4. Failure to comply with these policies will result, at a minimum, in a critical incident and failure in the course.
ACADEMIC INFORMATION

Students are expected to progress through the program in an uninterrupted pattern:

- Diploma in Practical Nursing should take 4 quarters;
- Associate Degree in Nursing should take 5 quarters;

DEFINITION OF QUARTER CREDIT HOUR

A quarter-credit hour is equivalent to a minimum of ten (10) classroom hours or twenty (20) hours of lab, on a 50 minute hour of instruction, with appropriate homework and study. Thirty (30) hours of clinical experience, on a 60 minute hour, equals one (1) credit hour.

DEFINITION OF ENROLLMENT STATUS

- Full-time: Students are enrolled for 12 or more credit hours per quarter.
- Three-quarters: Students are enrolled for 9-11 credit hours per quarter.
- Half-time: Students are enrolled for 6-8 credit hours per quarter.
- Below Half: Students are enrolled for under 6 credit hours per quarter.

ADVANCED STANDING POLICY

Hondros College of Nursing does not award advanced placement for previous work experience. Students in the Associate Degree in Nursing program and the receive advanced standing quarter credits for previous education completed. Advanced standing credits are noted on the academic transcript.

TRANSFERABILITY OF CREDITS

Hondros College of Nursing cannot guarantee the transferability of credits earned at any other institution. Determinations on the transferability of credits are made by the receiving institution.

TRANSFER CREDIT POLICY

Official evaluation of transfer credit will be conducted upon receipt of an official transcript. Official transcripts must be delivered in a sealed envelope or sent electronically through a certified credentialing agency from the original institution. Official transcripts should be received no later than the end of week one (1) of the program for evaluation. Hondros College of Nursing cannot guarantee evaluation of transfer credit for transcripts received later than week one (1) of the program. Transcripts will be evaluated from institutions that are accredited by accrediting bodies recognized by the United States Department of Education. Questions regarding the Transfer Credit policy should be directed to the Office of the Registrar.

General Policy – Applies to All Programs

1. Transfer credit will be considered for courses with a grade equivalent to a “C-” or better earned. Transfer credit is not awarded for Hondros College of Nursing courses with the “NUR” prefix.

2. Transfer credits are transcribed on the Hondros College of Nursing transcript and are counted in the cumulative hours completed, but they are not counted in the credit hours attempted as part of the cumulative grade point average.

3. Transfer credits are awarded in whole numbers and will be converted and rounded to the nearest whole number when earned in non-quarter based units.

4. Upon a student’s formal request, the College will determine whether any of the student’s military education and/or skills training is substantially equivalent to courses in their program. Students who wish to have their military experience
and/or national guard experience and training evaluated for equivalent transfer credit should submit the appropriate documentation, in the form of official transcripts and forms DD 214 (veterans) and DD 295 (active duty military personnel), to the Registrar for formal evaluation. The College may also accept as transfer credit completion of formal military courses as recommended by the American Council on Education (ACE) when verified through official transcripts (Army/ACE registry Transcript System, Community College of the Air Force, Sailor/Marine/ACE Registry Transcript, Registry of Credit Recommendations, or National Registry for Training Programs). In addition, credit may be awarded through review of a student’s certified Department of Defense (DD) Form 214 (Armed Forces of the United States Report of Transfer or Discharge) in conjunction with the ACE Handbook, Evaluation of Educational Experiences in the Armed Forces.

5. Transfer credit will be considered for international transcripts evaluated by an organization that is a member of the National Association of Credential Evaluation Services (NACES) or Association of International Credential Evaluators, Inc. (AICE).

**Transfer Credit Policy for Practical Nursing and Associate Degree in Nursing Programs**

1. Transfer credit will be evaluated for course content and credit hour. Transfer credit considered for BIO 117, Introduction to Anatomy and Physiology, may be a higher content course.

2. Credits earned at another institution during the period of enrollment at Hondros College of Nursing will not be considered for transfer credit.

3. General Education courses must have been completed within the past 10 years. Science courses, as defined in the program curriculum, must have been completed within the past 5 years. Science courses offered in a series at Hondros College of Nursing must have the complete series transfer in. Transfer credit may be considered outside these timeframes if:
   a. The student has earned an associate degree or higher.
   
   b. The course was part of a series where at least one of the series components falls within the aforementioned timeframe.

4. The Associate Degree in Nursing anatomy and physiology series at Hondros College of Nursing is evaluated for anatomy, physiology and microbiology content. A stand-alone microbiology course is often required to receive transfer credit for the series.

5. CLEP and other methods to test out of a course are not accepted as transfer credit.

**ACADEMIC STANDING STATUS POLICY**

Students’ academic progress will be evaluated at the end of each quarter. A satisfactory progress report indicating progress and academic standing in the program can be found in the Student Portal in the format of an unofficial transcript.

1. Good Standing: Students earning a minimum cumulative grade point average of 2.0 are considered to be in good academic standing. Good Standing will be noted on the student’s official transcript.

2. Honors: Students, enrolled half-time or more, with a quarterly grade point average of 3.25 or higher in a given quarter are eligible for honors, according to the following table:
<table>
<thead>
<tr>
<th>GPA Range</th>
<th>Honor List</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.75 - 4.00</td>
<td>President’s List</td>
</tr>
<tr>
<td>3.50 - 3.74</td>
<td>Dean’s List</td>
</tr>
<tr>
<td>3.25 - 3.49</td>
<td>Merit List</td>
</tr>
</tbody>
</table>

The appropriate honor will be noted on the student’s official transcript for the term in which it is earned.

Students who graduate from a program with a cumulative grade point average of 3.25 or higher will earn graduation honors, according to the following table:

<table>
<thead>
<tr>
<th>CGPA Range</th>
<th>Graduation Honor</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.75 - 4.00</td>
<td>Summa cum laude</td>
</tr>
<tr>
<td>3.50 - 3.74</td>
<td>Magna cum laude</td>
</tr>
<tr>
<td>3.25 - 3.49</td>
<td>Cum laude</td>
</tr>
</tbody>
</table>

Students who achieve graduation honors will have the appropriate honor noted on their official transcripts.

3. Academic Probation: A student earning a cumulative grade point average below a 2.0 or being reinstated from an academic dismissal will be placed on academic probation. Academic Probation will be noted on the student’s official transcript. Students will receive written notification if placed on academic probation.

Students on academic probation will be required to be advised and/or tutored for assistance prior to registering for future courses. Students on academic probation may still be eligible for financial aid.

Any subsequent quarter with a cumulative grade point average below the 2.0 minimum will result in academic dismissal.

Students will return to an academic status of Good Standing once the cumulative grade point average is a 2.0 or higher and/or the reinstatement requirements have been met.

4. Academic Dismissal: Academic Dismissal results when a student has met at least one of the following criteria:

   a) Fails to earn a cumulative grade point average of a 2.0 or better for a second quarter
   b) Fails the same course for a second time

Academic Dismissal is noted on the student’s official transcript. Students will receive written notification if academically dismissed.

**AUDIT POLICY**

Students interested in auditing a course must receive approval from the Campus Dean/Director of Nursing or designee. Depending on the course, there may be associated lab/material fees charged to the student.

Students repeating a course may also be required to audit an additional course(s) as indicated by their academic advising. Depending on the course, there may be associated lab/material fees charged to the student.

Audit courses are added to the student schedule but do not appear on the academic transcript. Audit courses do not count as attempted or earned credits, or apply to the CGPA for SAP purposes.
**INCOMPLETE POLICY**

Students who have posted attendance after week 7 may request to receive an incomplete grade ("I") if they are unable to complete assignments, projects, and/or a final exam due to documented extenuating circumstances beyond the student’s control (for example, hospitalization or death of an immediate family member). Permission must be granted from the Campus Dean/Director of Nursing or designee.

Students receiving an incomplete will have until the end of the following quarter to submit all work required to complete the course(s). Deadlines for missing work will be outlined by the Campus Dean/Director of Nursing or designee, in conjunction with the faculty member who will be working with the student to resolve the student’s incomplete coursework. If the student fails to complete the incomplete coursework within the established time-line, the “I” will be changed to an “F”. Failure of a course will result in the student needing to repeat the course; in addition, the student may be placed on academic probation, or may be academically dismissed.

Students receiving an incomplete may not progress in the program until they have successfully completed the course(s) by earning a “C” or better. Students successfully completing incomplete coursework prior to the end of the allotted quarter timeline must wait until the start of the next quarter to progress in the program.

**REPEAT POLICY**

Students must repeat and pass any courses in which they receive a failing grade or from which they have withdrawn or dropped. Students are only permitted to withdraw/drop from the same courses once. Students who need to repeat a course must complete an academic advising session to review scheduling options and registration. Students who need to repeat a course that is no longer offered due to a revised curriculum may have a blended curriculum, which may consist of a revised progression plan. Students cannot repeat a course(s) they have previously passed to simply improve their cumulative grade point average (CGPA).

1. Students are only permitted to repeat a failed course once. If the student is unsuccessful in the course on the second and final attempt, the student shall be academically dismissed from the College.

2. Students on academic probation are not permitted to take any additional course(s) out of sequence when repeating a failed course. Students repeating a course, but not on academic probation, may request to take a general education course, excluding BIO 254, out of sequence if space is available. Students must make the request in writing to the Campus Dean/Director of Nursing. Courses taken out of sequence are subject to all policies regarding unsuccessful progression and attendance. Students that are unsuccessful in a course taken out of sequence may be required to successfully complete only that course prior to advancing in their program.

3. All earned grades will become part of the student’s academic record and will be reflected on the academic transcript. Repeated coursework in which a passing grade was earned will be marked with an “R” on the academic transcript to indicate the course was repeated.

4. Once a course has been repeated with a passing grade, only the latest earned passing grade for a repeated course will be used in the calculation of the cumulative grade point average. Withdrawals (W) are not counted as an earned grade when recalculating the cumulative grade point average. If a student is repeating a previously passed course due to starting a program over, only the highest grades earned will calculate into the cumulative grade point average.

5. Repeated coursework must be taken at Hondros College of Nursing.

6. The student is responsible for all costs associated with repeated coursework. In some cases, financial aid may not be available for repeated coursework.

7. The student may not receive Title IV aid for retaking previously passed courses if the student is required to retake those courses because the student failed a different course in a prior term.

8. Students required to repeat a course will be able to do so only when space is available. If the student is required to repeat a course that is not offered in the following term, he or she must repeat the course the next time the course is offered.

9. Students repeating a course may be required to audit an additional course(s) in accordance with their academic advising plan. Audit courses may have associated lab/material fees charged to the student.

10. Students repeating a course for which they previously earned a grade of "W" may not withdraw or drop that course a second time. Dropping the same course twice may result in being administratively withdrawn at the end of the quarter.
RE-ENTRY POLICY

A former student who voluntarily withdrew may apply to the College for re-entry to his or her previous program. The applicant must satisfactorily demonstrate that the barriers that prevented him or her from completing the program during the previous enrollment have been resolved, and there is reasonable probability that he or she can complete the program of study within the maximum allowable timeframe. Applicants seeking re-entry should contact the Campus Dean/Director of Nursing or designee prior to the start of the next term. The College will evaluate the re-entry applicant’s Satisfactory Academic Progress (SAP) to determine if the applicant is eligible for re-entry. Students withdrawn for more than two quarters may be required to restart the program.

Applicants are required to sign a new enrollment agreement, which lists the current curriculum requirements, tuition, fees, term of enrollment, and other required disclosures. An applicant for re-entry must meet all admissions requirements of his or her program in effect at the time of re-entry. In addition, applicants may be required to complete a new background check in accordance with the policy in effect at the time of re-entry. The College reserves the right to deny re-entry to any applicant that carries an unpaid balance from his or her previous enrollment. Re-entry is not guaranteed and is dependent upon space and availability.

Students previously dismissed pursuant to the College’s academic dismissal policy, or who were administratively withdrawn, should refer to the Reinstatement Policy.

Students who have been dismissed due to a Student Code of Conduct violation are not eligible to be reinstated to Hondros College of Nursing.

REINSTATEMENT POLICY

Students who have been academically dismissed or administratively withdrawn may seek reinstatement by submitting the Request for Reinstatement form to the Campus Dean/Director of Nursing or designee. All requests for reinstatement will be reviewed by the College’s Reinstatement Committee. Students will be notified in writing of the Committee’s decision. Students can only request reinstatement once. The Committee’s decision is final and cannot be appealed. Reinstatement is not guaranteed.

Students granted reinstatement after an academic dismissal will be placed on Academic Probation. Students granted reinstatement must follow all policies in effect at the time of the reinstatement.

Reinstated students are required to sign a new enrollment agreement, which lists the current curriculum requirements, tuition, fees, term of enrollment, and other required disclosures. An reinstated student must meet all admissions requirements of his or her program in effect at the time of reinstatement. In addition, reinstated students may be required to complete a new background check in accordance with the policy in effect at the time of reinstatement.

Students who have failed the same course twice due to an extenuating circumstance such as serious injury or illness involving the student, death of an immediate family member, or other circumstances beyond the student’s control, may request reinstatement. Documentation is required.

Students who have been dismissed due to a Student Code of Conduct violation are not eligible to be reinstated to Hondros College of Nursing.

EXTENDED ENROLLMENT STATUS

The College does not allow extended enrollment status.

MILITARY DEPLOYMENT

When a student or a spouse has been deployed for military reasons, the student must contact the Campus Executive Director or Registrar and provide official military documentation. Upon return, the student is responsible for adhering to policies currently in effect. This applies to all students in all programs.

OUT-OF-CLASS ACADEMIC WORK

Students should be aware that for every hour of on-campus lecture, they should expect to spend two (2) to three (3) hours outside of class completing assigned work, including, but not limited to, readings, case studies, papers, homework assignments, and preparation for quizzes and exams, per the course’s topical outline. As an example, in a three (3) credit hour courses, students are expected to spend from six (6) – nine (9) hours outside of class in order to succeed in the lecture portion of the courses. Lab and clinical experiences may also require additional hours outside of the scheduled time to be successful in those portions of the course.
WITHDRAWAL POLICY

Attendance must be evident by the end of the first week for continuing students, or the student will be administratively withdrawn from the program. Students who post week 9 attendance and then stop attending or fail to meet the attendance requirements during or after week 9 will receive the grade earned at the end of the quarter, which may result in academic probation, an administrative withdraw, or academic dismissal from the college.

The student gives notice of the intent to withdraw from the College by contacting the Campus Dean/Director of Nursing or designee in person, in writing, by e-mail, or by phone. Withdrawals initiated with a last date of attendance up through the end of week 8 will earn a grade of “W”; a grade of “W” has no effect on cumulative grade point average. Withdrawals initiated with a last date of attendance after week 8 will receive the grade earned at the end of the quarter. Failure of a course may result in the student being placed on academic probation or being academically dismissed. The withdrawal will not supersede academic probation or academic dismissal. Withdrawal from the College may require funds to be returned to the U.S. Department of Education.

SINGLE COURSE DROP POLICY

Students may drop from one or more individual course(s) once up through the end of week 8 of the quarter and will receive a grade of “W”. Students must meet with their Campus Dean/Director of Nursing or designee to complete a Course Drop form. A grade of “W” has no effect on cumulative grade point average, but does impact pace of progression and maximum timeframe. Students must post attendance to be eligible for a course drop.

Students that drop all courses within a quarter will be considered withdrawn from the College.

Students must successfully repeat any dropped course prior to progressing in the program. Please refer to the Repeat Policy for more information.

Students may be required to audit additional courses when repeating a dropped course. Please refer to the Repeat Policy for more information.

GRADE SCALE

All grades are awarded in whole letter values only.

GRADE POINT CALCULATION
Quality points are determined by multiplying the grade point by the credit hours. The grade point average is determined by dividing the total quality points by total credit hours received. Transferred coursework, withdraw/transfers, withdrawals, audits, and incompletes are not calculated into the grade point average; however, transfer credits are accounted for in the total hours earned.

Example:
Grade A = 4.0 grade points x 4 credit hours = 16 quality points
Grade B = 3.0 grade points x 5 credit hours = 15 quality points
Total quality points = (16 + 15) = 31 divided by total credits of (9) = 3.444 grade point average

REGISTRATION INFORMATION
Students are responsible for their own academic planning and scheduling to meet graduation requirements. Students are required to register for courses via the Student Portal during open registration. Students who have an outstanding balance or have not submitted all required documentation will not be able to register for upcoming quarters.

Students are expected to complete the courses in an uninterrupted pattern as indicated on the curriculum listing page in this catalog. Students not registered for an upcoming quarter will be withdrawn from the college.

Students who need to change their program track, if multiple tracks are available at their campus, must request a change prior to the end of week 1 of the quarter in which they need to change tracks. All change requests must be approved by the Campus Dean/Director of Nursing. No section or track changes will occur after the end of week 1 of the quarter.

Students who need to repeat a course must complete academic advising with their Campus Dean/Director of Nursing or designee before being registered for the repeat course. Please refer to the Repeat Policy for additional information.

PROGRAM COMPLETION REQUIREMENTS
The candidate for program completion must:
1. Have successfully completed all program requirements with a minimum of “C” (2.0 GPA) or better in all courses.
2. Achieved the minimum number of credit hours required for the program of enrollment.

GRADUATION REQUIREMENTS
The candidate for graduation must:
1. Meet all program completion requirements.
2. Pay applicable graduation fee(s).
3. Be free of indebtedness to the College.
4. Complete Exit Counseling, applicable to students who receive Title IV funding and started their program Fall 2016 and beyond.

Candidates that meet program completion requirements, but have not met all other graduation requirements, listed above will be placed in completer status. Once all graduation requirements have been fulfilled, the candidate will be moved to graduate status. Only students in graduate status will have their completion letters released.

COMMENCEMENT/PINNING CEREMONIES
Commencement ceremonies are held throughout the year. Students assume the ultimate responsibility for meeting all graduation requirements. Failure to meet the graduation requirements may result in a student being deemed ineligible to attend the commencement and pinning ceremonies.

NCLEX® EXAM & LICENSING REQUIREMENTS - OHIO BOARD OF NURSING FELONY POLICY
Section 4723.28 of the Ohio Revised Code, the law regulating the practice of nursing, states that the Board of Nursing may deny a person the privilege of sitting for the licensing examination based on certain past behaviors or legal history.
Each applicant for licensure will be required to answer questions on the application related to whether the individual seeking licensure has been convicted of, found guilty of, pled guilty to, pled no contest to, or received treatment in lieu of conviction for 1) any misdemeanor committed in the course of practice in Ohio, 2) any felony, 3) any crime involving gross immorality or moral turpitude, or 4) any violation of a municipal, county, state, or federal law.

OHIO BOARD OF NURSING LICENSURE - APPLICATION REQUIREMENT
As of June 2004, the Ohio Board of Nursing requires all applicants for licensure to declare any existing psychiatric condition(s). Please check with the Board of Nursing for further clarification or questions at (614) 466-3947, or e-mail board@nursing.ohio.gov

PROOF OF CITIZENSHIP REQUIRED FOR NCLEX® CANDIDATES
The federal law known as Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) limits state licensure to U.S. citizens and other qualified applicants. The State Board of Nursing is required to keep assurance of citizenship on record with applications for licensure.

NURSING PROGRAM CURRICULUM
Effective January 2016 (Winter 2016 term), the College substantially revised all nursing programs. Community and professional input were important factors in revising the programs. Feedback from community partners, including clinical sites and employers, indicated a strong need to enhance critical thinking among graduates. In addition, the programs were revised to reflect more contemporary nursing education and educational delivery models to meet the demands of today's healthcare environment and, more specifically, the increased needs and complexity of the modern patient. The revisions also enhance the teaching and learning experience through the use of interactive and effective teaching strategies across all modalities.

PRACTICAL NURSING - DIPLOMA (DAY & EVENING/WEEKEND) - OHIO
Upon successful completion of four (4) quarters (44 weeks) of the Practical Nursing curriculum, and meeting all graduation requirements, the graduate will be awarded a diploma and be certified to the Ohio Board of Nursing, which will determine the student’s eligibility to sit for the National Council Licensure Examination for Practical Nurses (NCLEX®-PN). Within the scope of practice for the licensed practical nurse, and at the direction of a licensed physician, dentist, podiatrist, optometrist, chiropractor or registered nurse, the graduate will meet the client's needs by fulfilling the following program outcomes:

1. Provide safe, quality, evidence-based, patient-centered nursing care to diverse patients across the lifespan in a variety of structured healthcare settings within the scope of practice of the Practical Nurse.
   a. Collect data related to physical, behavioral, psychological, and spiritual aspects of health and illness parameters in patients experiencing common health problems, using developmentally and culturally appropriate approaches.
   b. Work with the Registered Nurse or other healthcare provider to identify patient needs based on the data collected.
   c. Contribute to a patient-centered plan of care based on knowledge of evidence and patient information/preferences to meet individual patient needs.
   d. Provide patient-centered care focusing on restoration, promotion, and maintenance of physical and mental health.
   e. Incorporate factors that create a culture of safety when providing patient care.
   f. Provide patient teaching that reflects developmental stage, age, culture, spirituality, patient preferences, and health literacy considerations.
   g. Implement nursing interventions to prevent illness, and restore, promote and maintain physical and mental health of patients across the lifespan.
   h. Analyze collected patient outcome data to determine the effectiveness and impact of nursing care.
   i. Deliver care within expected timeframe.
   j. Communicate information about care provided and evaluation data including appropriate handoff at each transition in care.
   k. Incorporate cultural awareness/sensitivity when providing care to diverse patients in a variety of healthcare settings.
   l. Assist with the revision of the plan of care based on an ongoing collection of patient data including recognition of alterations to previous patient conditions.
m. Safely perform all psychomotor skills needed for efficient, safe, and compassionate patient care including accurate calculation of dosages.

n. Accurately document all aspects of patient care.

2. Engage in clinical judgment to make patient-centered care decisions within the scope of practice of the Practical Nurse.
   a. Use clinical judgment to ensure accurate and safe care when implementing all steps of the nursing process.
   b. Anticipate risks, and predict and manage potential complications for patients experiencing common health problems.
   c. Prioritize patient care.
   d. Incorporate knowledge of the healthcare system and how it impacts the nurse's ability to provide safe, quality care.

3. Incorporate quality improvement activities to improve patient care.
   a. Participate in quality improvement activities.
   b. Use the data from quality improvement activities to plan patient care.
   c. Report identified quality improvement concerns to appropriate personnel (e.g., nurse manager, risk manager, etc.).
   d. Implement National Patient Safety Goals in all applicable patient care settings.

4. Participate in teamwork and collaboration with the inter-professional team, the patient, and the patient’s support persons.
   a. Share pertinent, accurate, and complete information with the inter-professional team.
   b. Work with the Registered Nurse to plan for patient safety and quality improvements within the context of the inter-professional team.
   c. Interpret the impact of team functioning on safety and quality improvement.

5. Use information technology to support and communicate the provision of patient care.
   a. Use patient care technologies, information systems/technologies, and communication devices to support safe nursing practice.
   b. Use high quality electronic sources of healthcare information.
   c. Enter computer documentation accurately, completely, and in a timely manner.

6. Incorporate management, legal, and ethical guidelines within the scope of practice of a Practical Nurse.
   a. Practice within the legal and ethical frameworks of Practical Nursing.
   b. Demonstrate accountability for nursing care given by self and/or delegated to unlicensed personnel.
   c. Delegate nursing tasks to unlicensed personnel.
   d. Advocate for patient rights and needs.
   e. Initiate a plan for ongoing professional development and lifelong learning.

7. Promote a culture of caring to provide support, compassion and culturally-competent, holistic care.
   a. Provide support, empowerment, and hope when caring for diverse patients.
   b. Reflect on care provided to continue to improve caring relationships.
   c. Deliver compassionate, culturally-competent care that respects patient and family preferences.
   d. Maintain an environment conducive to well-being.

PRACTICAL NURSING - DIPLOMA (DAY & EVENING/WEEKEND) - INDIANA (Indianapolis Branch (Non-Main) Campus)

Upon successful completion of four (4) quarters (44 weeks) of the Practical Nursing curriculum, and meeting all graduation requirements, the graduate will be awarded a diploma and be certified to the Indiana Board of Nursing, which will determine the student’s eligibility to sit for the National Council Licensure Examination for Practical Nurses (NCLEX®-PN). Within the scope of practice for the licensed practical nurse, and at the direction of a licensed physician, dentist, podiatrist, optometrist, chiropractor or registered nurse, the graduate will meet the client’s needs by fulfilling the following program outcomes:

1. Provide safe, quality, evidence-based, patient-centered nursing care to diverse patients across the lifespan in a variety of structured healthcare settings within the scope of practice of the Practical Nurse.
   a. Collect data related to physical, behavioral, psychological, and spiritual aspects of health and illness parameters in patients experiencing common health problems, using developmentally and culturally appropriate approaches.
   b. Work with the Registered Nurse or other healthcare provider to identify patient needs based on the data collected.
   c. Contribute to a patient-centered plan of care based on knowledge of evidence and patient information/preferences to meet individual patient needs.
   d. Provide patient-centered care focusing on restoration, promotion, and maintenance of physical and mental health.
   e. Incorporate factors that create a culture of safety when providing patient care.
   f. Provide patient teaching that reflects developmental stage, age, culture, spirituality, patient preferences, and health literacy considerations.
   g. Implement nursing interventions to prevent illness, and restore, promote and maintain physical and mental health of patients across the lifespan.
   h. Analyze collected patient outcome data to determine the effectiveness and impact of nursing care.
   i. Deliver care within expected time-frame.
   j. Communicate information about care provided and evaluation data including appropriate handoff at each transition in care.
   k. Incorporate cultural awareness/sensitivity when providing care to diverse patients in a variety of healthcare settings.
   l. Assist with the revision of the plan of care based on an ongoing collection of patient data including recognition of alterations to previous patient conditions.
   m. Safely perform all psychomotor skills needed for efficient, safe, and compassionate patient care including accurate calculation of dosages.
   n. Accurately document all aspects of patient care.

2. Engage in clinical judgment to make patient-centered care decisions within the scope of practice of the Practical Nurse.
   a. Use clinical judgment to ensure accurate and safe care when implementing all steps of the nursing process.
   b. Anticipate risks, and predict and manage potential complications for patients experiencing common health problems.
   c. Prioritize patient care.
   d. Incorporate knowledge of the healthcare system and how it impacts the nurse’s ability to provide safe, quality care.

3. Incorporate quality improvement activities to improve patient care.
   a. Participate in quality improvement activities.
   b. Use the data from quality improvement activities to plan patient care.
   c. Report identified quality improvement concerns to appropriate personnel (e.g., nurse manager, risk manager, etc.).
   d. Implement National Patient Safety Goals in all applicable patient care settings.

4. Participate in teamwork and collaboration with the inter-professional team, the patient, and the patient’s support persons.
   a. Share pertinent, accurate, and complete information with the inter-professional team.
   b. Work with the Registered Nurse to plan for patient safety and quality improvements within the context of the inter-professional team.
   c. Interpret the impact of team functioning on safety and quality improvement.
5. Use information technology to support and communicate the provision of patient care.
   a. Use patient care technologies, information systems/technologies, and communication devices to support safe nursing practice.
   b. Use high quality electronic sources of healthcare information.
   c. Enter computer documentation accurately, completely, and in a timely manner.

6. Incorporate management, legal, and ethical guidelines within the scope of practice of a Practical Nurse.
   a. Practice within the legal and ethical frameworks of Practical Nursing.
   b. Demonstrate accountability for nursing care given by self and/or delegated to unlicensed personnel.
   c. Delegate nursing tasks to unlicensed personnel.
   d. Advocate for patient rights and needs.
   e. Initiate a plan for ongoing professional development and lifelong learning.

7. Promote a culture of caring to provide support, compassion and culturally-competent, holistic care.
   a. Provide support, empowerment, and hope when caring for diverse patients.
   b. Reflect on care provided to continue to improve caring relationships.
   c. Deliver compassionate, culturally-competent care that respects patient and family preferences.
   d. Maintain an environment conducive to well-being.

ASSOCIATE DEGREE IN NURSING PROGRAM - OHIO

Upon successful completion of five (5) quarters (55 weeks) of the Associate Degree in Nursing curriculum, and meeting all graduation requirements, the graduate will be awarded an Associate Degree in Nursing and be certified to the Ohio Board of Nursing, which will determine the graduate's eligibility to sit for the National Council Licensure Examination for Registered Nurses (NCLEX®-RN). Graduates of the Associate Degree in Nursing Program will be able to meet the client's needs by fulfilling the following program outcomes:

1. Provide safe, quality, evidence-based, patient-centered nursing care to diverse patients across the lifespan in a variety of healthcare settings.
   a. Complete a comprehensive and/or focused physical, behavioral, psychological, and spiritual assessment of health and illness parameters in patients, using developmentally and culturally appropriate approaches.
   b. Use assessment findings to identify patient needs.
   c. Develop a plan of care based on evidence-based practice considering individual patient needs.
   d. Provide patient-centered care based on an understanding of human growth and development, pathophysiology, pharmacology, nutrition, medical management, and nursing management.
   e. Promote factors that create a culture of safety.
   f. Provide teaching that reflects the patient's developmental stage, age, culture, religion, spirituality, patient preferences, and health literacy considerations.
   g. Monitor patient outcomes to evaluate the effectiveness and impact of nursing care.
   h. Deliver care within expected timeframe.
   i. Provide patient-centered transitions of care and hand-off communications.
   j. Revise the plan of care based on an ongoing evaluation of patient outcomes.
   k. Safely perform psychomotor skills.
   l. Accurately document all aspects of patient care.

2. Exercise clinical judgment to make increasingly complex patient-centered care decisions in a safe care environment.
   a. Use clinical judgement to make management decisions to ensure accurate and safe nursing care, including addressing anticipated changes in the patient's condition.
   b. Anticipate risks, and predict and manage potential complications.
   c. Prioritize patient care.
   d. Examine the clinical microsystem to determine its impact on the nurse's ability to provide safe, quality care.

3. Participate in quality improvement processes to improve patient care outcomes.
   a. Use quality improvement processes to effectively implement patient safety initiatives and monitor performance measures, including nursing-sensitive indicators.
   b. Analyze information about quality improvement processes used in a variety of healthcare settings.
   c. Participate in analyzing errors and identifying system improvements.
   d. Implement National Patient Safety Goals in all applicable patient care settings.

4. Participate in teamwork and collaboration with members of the inter-professional team, the patient, and the patient's support persons.
   a. Effectively communicate with all members of the healthcare team, including the patient and the patient's support network when making decisions and planning care.
   b. Collaborate with appropriate inter-professional healthcare professionals when developing a plan of care.
   c. Use conflict resolution principles as needed.

5. Use information management systems and patient care technology to communicate, manage knowledge, mitigate error, and support decision-making.
   a. Use patient care technologies, information systems/technologies, and communication devices to support safe nursing practice.
   b. Evaluate the role of information technology and information systems in improving patient outcomes and creating a safe care environment.
6. Incorporate leadership, management, legal, and ethical principles to guide practice as a Registered Nurse.
   a. Practice within the legal and ethical frameworks of Registered Nursing practice.
   b. Analyze patient care within the context of the ANA Standards of Practice.
   c. Demonstrate accountability for nursing care given by self and/or delegated to others.
   d. Apply leadership and management skills when working with other healthcare team members.
   e. Serve as a patient advocate.
   f. Evaluate the impact of economic, political, social, and demographic forces on the provision of health care.
   g. Complete a plan for ongoing professional development and lifelong learning.

7. Promote a culture of caring to provide holistic, compassionate patient care.
   a. Provide support, empowerment, and hope when caring for diverse patients in a variety of healthcare systems.
   b. Deliver compassionate, culturally-competent care that respects patient and family preferences.

Students will receive 48 advance standing credits for completion of their approved practical nursing program or previously completed college equivalent work.

COURSES OFFERED VIA DISTANCE EDUCATION

Online courses are delivered through the Sakai learning management system, and emphasize interaction between students and their faculty, their peers, and the course content.

In their online courses, students will:
• Engage with course content, as presented in slideshows, readings, and other media;
• Interact with other students via discussion forums, peer reviews, and group activities;
• Review instructor feedback on papers, projects, and other assignments;
• Take tests and quizzes through the online classroom;
• Communicate with the instructor using a variety of tools, including email, the Sakai Messages functionality, a course chat room, and/or a synchronous virtual classroom.

While courses in the PN and ADN programs are primarily offered on campus or at a clinical location, select courses are only offered online. All students receive information about how to access and use the online classroom as part of an orientation experience.

Online courses are provided by the main campus of Hondros College of Nursing, located in Westerville, Ohio (Host Institution), to the four branch campuses of Hondros College of Nursing located in Ohio (Independence, Fairborn, West Chester, and Maumee) and one branch campus in Indiana (Indianapolis). Students enrolled in an online course delivered by the Host Institution must adhere to the Single Course Drop Policy and the Withdrawal Policy in the Hondros College of Nursing Student Catalog for the program in which they are enrolled. The time that a student should expect to devote to the mastery of course learning objectives does not vary with the instructional delivery method.
EXPLANATION OF COURSE NUMBERING SYSTEM

The College utilizes intuitive course prefixes, typically abbreviations or truncations of the actual course subject name, for all credit courses (i.e., Psychology is noted as PSY). It continues to follow the numbering system noted below. The College does not offer remedial courses.

• 100 level: These courses are entry level or first year courses as related to their subject matter. All 100 level nursing and science courses are taught at a vocational school level.

• 200 level: These courses are college level as related to their subject matter.

COL 099 Strategies for Successful Nursing Professionals  
0 Quarter Credit Hours  
Lecture: 0 Credits  
Lecture: 20 clock hours (5 weeks)  
This course will help students become familiar with expectations for academic success at the college level. The learning activities will help students understand their learning style and enhance their study skills to maximize academic success. Students will learn basic computer literacy and be introduced to the college’s student portal. Students will learn how to use the needed technology for success in the nursing program. The course will emphasize time management skills, stress reduction activities, and test anxiety coping strategies. △  
Pre-requisites: None.

COM 200 Public Speaking  
2 Quarter Credit Hours  
Lecture: 2 Credits  
Lecture: 20 clock hours  
The course will cover various types of oral presentations. Students will practice and hone verbal and nonverbal presentation and listening skills. In addition to preparing and delivering various forms of speeches, students will also study and analyze the content, structure, and style of oral presentations. △  
Prerequisites: None

ENG 090 College Reading Skills  
0 Quarter Credit Hours  
Lecture: 0 Credits  
Lecture: 20 clock hours  
College Reading Skills is designed to help students improve their understanding of written materials by using reading comprehension strategies. Topics discussed include learning new vocabulary; comprehending paragraphs and essays by identifying and inferring main ideas, locating supporting details, and identifying organizational patterns; and using reading strategies and study skills. △  
Prerequisites: ACCUPLACER Examination placement. This course is to be taken during the first quarter of the ADN program and will follow the Academic Standing Status Policy and the Repeat Policy.

ENG 200 English Composition I  
3 Quarter Credit Hours  
Lecture: 3 Credits  
Lecture: 30 clock hours  
In this course, students will develop the fundamentals of college-level writing, and produce works of structured written prose. Specific topics include the writing process; mechanics, usage, grammar, and spelling; locating, evaluating, and integrating sources; constructing thesis statements; and proper citing and referencing. △  
Prerequisites: None

ENG 205 English Composition II  
3 Quarter Credit Hours  
Lecture: 3 Credits  
Lecture: 30 clock hours  
In this course, students continue their development as college-level writers, applying the skills learned in English Composition I to the development of longer and more complex written works. Students will focus primarily on research skills and the effective integration of outside sources into essays and papers. Students will engage with additional topics related to writing style, grammar, mechanics, and usage. △  
Prerequisites: ENG 200 or equivalent

MTH 099 Pathways to Algebra  
0 Quarter Credit Hours  
Lecture: 0 Credits  
Lecture: 20 clock hours  
This course covers topics essential for the successful completion of a college-level algebra course. The student will become familiar with and practice preliminary topics that will be necessary for the study of algebra, including arithmetic expressions; factors and multiples; fractions; decimals; negative number; plotting points on the coordinate plane; rates, ratios, and proportions; expressions, equations, and inequalities; and exponents, radicals, and scientific notation. △  
Prerequisites: ACCUPLACER Examination placement. This course is to be taken during the first quarter of the ADN program and will follow the Academic Standing Status Policy and the Repeat Policy.
MTH 101 Basic Math and Dosage Calculation
3 Quarter Credit Hours
Lecture: 3 Credits
Lecture: 30 clock hours
This course is designed to enhance the math skills of students essential for the safe administration of medications. This course includes a review of basic mathematics, the metric system, apothecary and household systems, conversions within each system, conversions from one system to another, dosage calculations of oral and parenteral drugs for adult and pediatric patients. The students will also learn basic intravenous calculations and be introduced to principles of pediatric dosage calculations based on weight, and safe dose ranges. CΔ
Prerequisites: None

MTH 203 College Math and Dosage Calculation
2 Quarter Credit Hours
Lecture: 2 Credits
Lecture: 20 clock hours
This course is designed to reinforce and enhance the math skills of nursing students essential for the safe administration of medications, and cover essential concepts in college mathematics. Basic mathematic skills, conversions, dosage calculations of oral and parenteral drugs for adult and pediatric patients, intravenous calculations, and safe dosage ranges will be reviewed. Other topics covered include arithmetic expressions; factors and multiples; fractions; decimals; negative numbers; rates, ratios and proportions; and solving application problems involving proportions, percentages, and fractions. OΔ
Prerequisites: All Term 1 ADN Courses

MTH 205 Algebra
3 Quarter Credit Hours
Lecture: 3 Credits
Lecture: 30 clock hours
This course covers the essentials of algebra. Topics include the study of real numbers, linear equations and inequalities, graphing of equations, properties of exponents, rational expressions and functions, and quadratic equations and functions. Students will practice mathematical reasoning, develop mathematical vocabulary, and apply problem-solving strategies to real-world scenarios. OΔ
Prerequisites: None

NUR 150 Fundamental Concepts of Practical Nursing I
3 Quarter Credit Hours
Lecture: 2 Credits, Lab: 1 Credit
Lecture: 20 clock hours, Lab: 20 clock hours
This course focuses on fundamental concepts necessary for safe, patient-centered nursing care for a diverse patient population with well-defined healthcare concerns, with an introduction to the legal and ethical responsibilities of the Practical Nurse. This course introduces the use of clinical judgment applied to nursing, the nursing process, cultural diversity, and communication techniques used when interacting with patients, families, other support persons, and members of the inter-professional team. Other program concepts such as evidence-based care, teamwork/collaboration, and information technology are also introduced. Selected nursing skills are taught in the skills laboratory with opportunities to apply fundamental concepts to basic nursing skills. C*
Prerequisites: None

NUR 155 Critical Thinking for the Practical Nurse
2 Quarter Credit Hours
Lecture: 2 Credits
Lecture: 20 clock hours
This course introduces the learner to critical thinking skills and strategies used in nursing. The student learns to use critical thinking skills and strategies that underscore the clinical judgment represented in the nursing process as well as dealing with aspects of the healthcare system for safe practice in the current healthcare environment. This course forms the basis for the thinking processes applied throughout all nursing courses. C*
Prerequisites: None

NUR 160 Fundamental Concepts of Practical Nursing II
6 Quarter Credit Hours
Lecture: 3 Credits, Lab: 2 Credits, Clinical: 1 Credit
Lecture: 30 clock hours, Lab: 40 clock hours, Clinical: 30 clock hours
This course is a continuation of Fundamental Concepts of Practical Nursing I, and focuses on fundamental concepts necessary for safe, patient-centered nursing care for a diverse patient population with consideration of the legal and ethical responsibilities of the Practical Nurse.
This course applies the thinking learned in Critical Thinking for the Practical Nurse as students learn additional concepts in the classroom and nursing skills in the skills laboratory, and care for patients with common healthcare problems in the clinical setting. C*
Prerequisites: All Term 1 PN Courses

**NUR 163 Concepts of Practical Nursing in the Care of Elderly Patients**
3 Quarter Credit Hours
**Lecture:** 3 Credits
**Lecture:** 30 clock hours
This course incorporates and builds on previously learned concepts for the acquisition and application of concepts necessary for safe, patient-centered nursing care of diverse elderly patients considering the legal and ethical responsibilities of the Practical Nurse. Students begin to apply clinical judgment to nursing care of the elderly, the nursing process, cultural diversity, and communication techniques used when interacting with the elderly, their family, other support persons, and members of the inter-professional team. Other program concepts such as evidence-based care, teamwork/collaboration, and information technology are related to the care of the elderly. C*
Prerequisites: All Term 1 PN Courses

**NUR 166 Concepts of Family-Centered Nursing for the Practical Nurse**
4 Quarter Credit Hours
**Lecture:** 2 Credits, Lab: 2 Credits
**Lecture:** 20 clock hours, Lab: 40 clock hours
This course incorporates and builds on previously learned concepts for the acquisition and application of basic nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care to diverse families during childbearing and to children with a focus on growth and development. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of the childbearing family and children. Application of knowledge and skills occurs in the nursing skills laboratory. C*
Prerequisites: All Term 1 and Term 2 PN Courses

**NUR 167 Concepts of Family-Centered Nursing for the Practical Nurse (Indianapolis PN Program Only)**
5 Quarter Credit Hours
**Lecture:** 2 Credits, Lab: 2 Credits, Clinical: 1 Credit
**Lecture:** 20 clock hours, Lab: 40 clock hours, Clinical: 30 clock hours
This course incorporates and builds on previously learned concepts for the acquisition and application of basic nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care to diverse families during childbearing and to children with a focus on growth and development. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of the childbearing family and children. Application of knowledge and skills occurs in variety of lab and clinical settings. C*
Prerequisites: All Term 1 and Term 2 PN Courses

**NUR 172 Intravenous Therapy for the Practical Nurse**
3 Quarter Credit Hours
**Lecture:** 2 Credits, Lab: 1 Credit
**Lecture:** 20 clock hours, Lab: 20 clock hours
This course offers the theoretical basis for intravenous therapy administered by the Practical Nurse. Hands-on learning and practice is accomplished in the skills laboratory. Supervised clinical practice of the skills of intravenous therapy learned in the course is provided in concurrent and subsequent clinical nursing courses. C*
Prerequisites: All Term 1 and Term 2 PN Courses

**NUR 176 Concepts of Adult Health Nursing for the Practical Nurse I**
5 Quarter Credit Hours
**Lecture:** 3 Credits, Clinical: 2 Credits
**Lecture:** 30 clock hours, Clinical: 60 clock hours
This course incorporates and builds on the concepts introduced in the first two terms and provides for the acquisition and application of basic nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care to diverse adult patients experiencing various medical/surgical interventions. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of adult patients with common health problems. Application of knowledge and skills occurs in a variety of clinical settings. C*
Prerequisites: All Term 1 and Term 2 PN Courses
NUR 180 Concepts of Mental Health Nursing for the Practical Nurse
3 Quarter Credit Hours
Lecture: 3 Credits
Lecture: 30 clock hours
This theory course incorporates and builds on previously learned concepts for the acquisition and application of basic nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care to diverse patients needing various levels of mental health promotion and mental illness management while integrating legal and ethical responsibilities of the Practical Nurse. Application of knowledge and skills occurs in a variety of clinical settings during the concurrent Adult Health Nursing Course. C*
Prerequisites: All Term 1, Term 2 and Term 3 PN Courses

NUR 185 Concepts of Adult Health Nursing for the Practical Nurse II
3 Quarter Credit Hours
Lecture: 1 Credit, Clinical: 2 Credits
Lecture: 10 clock hours, Clinical: 60 clock hours
This course is a continuation of Concepts of Adult Health Nursing for the Practical Nurse I, and provides for the acquisition and application of basic nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care to diverse adult patients experiencing various medical/surgical interventions. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of adult patients with common health problems. Application of knowledge and skills occurs in a variety of clinical settings. C*
Prerequisites: All Term 1, Term 2 and Term 3 PN Courses

NUR 190 Transition to Practical Nursing Practice
3 Quarter Credit Hours
Lecture: 3 Credits
Lecture: 30 clock hours
This advanced, comprehensive course provides a synthesis of all concepts and nursing content taught throughout the program. This course enables the individual student to recognize areas that need enhancement prior to entering Practical Nursing practice. This course includes a review for the NCLEX-PN® and strategies for success. C*
Prerequisites: All Term 1, Term 2 and Term 3 PN Courses

NUR 195 Application of Clinical Judgment in Practical Nursing Practice
3 Quarter Credit Hours
Lecture: 1 Credit, Lab: 2 Credits
Lecture: 10 clock hours, Lab: 40 clock hours
This course expands on and reinforces previously learned concepts with application of clinical judgment in the care of patients with multiple health issues. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of patients with a variety of health concerns. In addition, the course facilitates the transition from student to Practical Nurse through application of all program concepts as students demonstrate achievement of program student learning outcomes in the simulation laboratory. C*
Prerequisites: All Term 1, Term 2 and Term 3 PN Courses
NUR 200 Critical Thinking for the Registered Nurse
2 Quarter Credit Hours
Lecture: 2 Credits
Lecture: 20 clock hours
This course introduces the learner to critical thinking skills and strategies used by the Registered Nurse. The student applies critical thinking skills and strategies at the RN level that underscore the clinical judgment represented in the nursing process as well as dealing with aspects of the healthcare system for safe practice in the current healthcare environment. This course reinforces the thinking processes applied throughout all nursing courses. C*
Prerequisites: Practical Nursing Program completion

NUR 205 Transition to Associate Degree Nursing
5 Quarter Credit Hours
Lecture: 3 Credits, Lab: 1 Credit, Clinical: 1 Credit
Lecture: 30 clock hours, Lab: 20 clock hours, Clinical: 30 clock hours
The course focuses on the difference between the practice of a Practical Nurse and the practice of a Registered Nurse. Common concepts and content learned in a Practical Nursing program are revisited differentiating the scope of practice for a Registered Nurse. Specific concepts include the nursing process, management of care, delegation, legal aspects, and other common differentiating practices related to the scope of practice between the two levels of nursing. Additional nursing skills that are commonly taught in the first year of a Registered Nursing program are included. Course concepts are applied through the care of patients with common healthcare issues in a variety of healthcare settings. C*
Prerequisites: None

NUR 210 Concepts of Pediatric Nursing
4 Quarter Credit Hours
Lecture: 2 Credits, Lab: 2 Credits
Lecture: 20 clock hours, Lab: 40 clock hours
This course builds on concepts of nursing practice for the acquisition and application of pediatric nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of diverse children, their families, and other support persons. The course incorporates the legal and ethical responsibilities of the Registered Nurse in the care of children. Application of knowledge and skills occurs in the nursing skills laboratory. C*
Prerequisites: All Term 1 ADN Courses

NUR 212 Concepts of Nursing Care of the Adult I
7 Quarter Credit Hours
Lecture: 3 Credits, Lab: 1 Credit, Clinical: 3 Credits
Lecture: 30 clock hours, Lab: 20 clock hours, Clinical: 90 clock hours
This course builds on concepts of nursing practice for the acquisition and application of adult health nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of adults. The course incorporates the legal and ethical responsibilities of the Registered Nurse in the care of adults, their families, and other support persons. Application of knowledge and skills occurs in the nursing skills laboratory and a variety of clinical settings. C*
Prerequisites: All Term 1 ADN Courses

NUR 215 Concepts of Mental Health Nursing
3 Quarter Credit Hours
Lecture: 3 Credits
Lecture: 30 clock hours
This course builds on concepts of nursing practice for the acquisition and application of mental health nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of diverse patients needing various levels of mental health promotion and mental illness management, their families, and other support persons. The course incorporates the legal and ethical responsibilities of the Registered Nurse in mental health nursing. Application of knowledge and patient care skills occurs in a variety of clinical settings in concurrent and subsequent clinical courses. C*
Prerequisites: All Term 1 ADN Courses
NUR 220 Concepts of Nursing Care of the Reproducing Family
4 Quarter Credit Hours
Lecture: 2 Credits, Lab: 2 Credits
Lecture: 20 clock hours, Lab: 40 clock hours
This course builds on concepts of nursing practice for the acquisition and application of maternal/child nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of the reproducing family and other support persons. The course incorporates the legal and ethical responsibilities of the Registered Nurse in the care of reproducing families. Application of knowledge and skills occurs in the nursing skills laboratory. C*
Prerequisites: All Term 1 and Term 2 ADN Courses

NUR 221 Concepts of Nursing Care of the Reproducing Family
5 Quarter Credit Hours
Lecture: 3 Credits, Lab: 2 Credits
Lecture: 30 clock hours, Lab: 40 clock hours
This course builds on concepts of nursing practice for the acquisition and application of maternal/child nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of the reproducing family and other support persons. The course incorporates the legal and ethical responsibilities of the Registered Nurse in the care of reproducing families. Application of knowledge and skills occurs in the nursing skills laboratory and a variety of clinical settings. C*
Prerequisites: All Term 1 and Term 2 ADN Courses

NUR 225 Professional Nursing Issues
3 Quarter Credit Hours
Lecture: 3 Credits
Lecture: 30 clock hours
This course presents various practice issues related to contemporary nursing practice. Also covered are issues relevant to the healthcare system. A major emphasis is on the provision of a safe healthcare environment to promote improved patient outcomes. Specific topics covered in the course are planned to reflect current nursing practice and healthcare system issues. O*
Prerequisites: All Term 1 and Term 2 ADN Courses

NUR 230 Concepts of Nursing Care of Diverse Populations
2 Quarter Credit Hours
Lecture: 2 Credits
Lecture: 20 clock hours
Diversity of populations is a major emphasis in health care. Improved patient outcomes are often dependent on patient-centered care that represents a deep understanding of cultural competence and sensitivity. This course addresses aspects of diversity including, but not limited to, diversity of culture, religion, ethnicity, sexual orientation, and diversity of thought. O*
Prerequisites: All Term 1, Term 2 and Term 3 ADN Courses

NUR 232 Concepts of Pediatric Nursing
4 Quarter Credit Hours
Lecture: 2 Credits, Lab: 2 Credits
Lecture: 20 clock hours, Lab: 40 clock hours
This course builds on concepts of nursing practice for the acquisition and application of pediatric nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of diverse children, their families, and other support persons. The course incorporates the legal and ethical responsibilities of the Registered Nurse in the care of children. Application of knowledge and skills occurs in the nursing skills laboratory. C* Prerequisites: All Term 1, Term 2 and Term 3 ADN Courses.
NUR 235 Concepts of Nursing Care of the Adult I
7 Quarter Credit Hours
Lecture: 3 Credits, Lab: 1 Credit, Clinical: 3 Credits
Lecture: 30 clock hours, Lab: 20 clock hours, Clinical: 90 clock hours
This course builds on concepts of nursing practice for the acquisition and application of adult health nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of adults. The course incorporates the legal and ethical responsibilities of the Registered Nurse in the care of adults, their families, and other support persons. Application of knowledge and skills occurs in the nursing skills laboratory and a variety of clinical settings. C*
Prerequisites: All Term 1, Term 2 and Term 3 ADN Courses

NUR 240 Transition to Registered Nursing
3 Quarter Credit Hours
Lecture: 3 Credits
Lecture: 30 clock hours
This advanced, comprehensive course provides a synthesis of all concepts and nursing content taught throughout the program. This course enables the individual student to recognize areas that need enhancement prior to entering Registered Nursing practice. This course includes a review for the NCLEX-RN® and strategies for success. C*
Prerequisites: All Term 1, Term 2, Term 3 and Term 4 ADN Courses

NUR 243 Application of Clinical Judgment in RN Practice
3 Quarter Credit Hours
Lecture: 1 Credits, Lab: 2 Credits
Lecture: 10 clock hours, Lab: 40 clock hours
This course expands on and reinforces previously learned concepts with application of clinical judgment in the care of patients across the lifespan with complex health issues. The course incorporates the legal and ethical responsibilities of the Registered Nurse. In addition, the course facilitates the transition from student to Registered Nurse practice through application of all program concepts as students demonstrate achievement of program student learning outcomes in the simulation laboratory. C*
Prerequisites: All Term 1, Term 2, Term 3 and Term 4 ADN Courses

NUR 245 Concepts of Nursing Care of the Adult II
7 Quarter Credit Hours
Lecture: 3 Credits, Lab: 1 Credit, Clinical: 3 Credits
Lecture: 30 clock hours, Lab: 20 clock hours, Clinical: 90 clock hours
This course is a continuation of Concepts of Nursing Care of the Adult I and builds on concepts of nursing practice for the acquisition and application of adult health nursing theory, communication, collaboration, and clinical judgment necessary for safe, patient-centered nursing care of adults with complex healthcare issues. The course incorporates the legal and ethical responsibilities of the Registered Nurse in the care of adults, their families, and other support persons. Application of knowledge and skills occurs in the nursing skills laboratory and a variety of clinical settings. C*
Prerequisites: All Term 1, Term 2, Term 3 and Term 4 ADN Courses

PSY 205 Lifespan Development
2 Quarter Credit Hours
Lecture: 2 Credits
Lecture: 20 clock hours
This course explores lifespan development through the lenses of social, cultural, cognitive, biological, and learning theories and research. Students will develop a conceptual understanding of healthy development, and a practical understanding of how to help children, adolescents, and adults address the developmental challenges they face across the lifespan. Additional focus is placed on one's own developmental processes, as well as the role of cultural differences and commonalities in the developmental process. OD
