

SMART. FOCUSED. DIRECT.

THE BETTER WAY TO BECOME A NURSE

ACHIEVING YOUR GOALS JUST GOT MORE ATTAINABLE.

Few career choices are as fulfilling as nursing. It's a field that's always in demand – known for its amazing flexibility, attractive financial reward, ample career advancement and, of course, the opportunity to make an impact in countless lives every day.

With so many benefits, it's not surprising today's nursing students are eager to get in the field and start working as soon as they can. But, all too often, the typical educational path can make that field seem so far away — delayed by long waitlists and lengthy timelines filled with unnecessary classes and mounting debt.

**There is a better way.
Welcome to Hondros College of Nursing.**

“My favorite part of this school is the ability to be a licensed practical nurse after just one year, and a registered nurse in another 15 months. I truly believe HCN is the better way to become a nurse.”

**Grace DiTomassi,

Our supportive, straightforward philosophy begins with our Learn and Earn Ladder approach, where each stage is presented in manageable steps. After completing one program and becoming licensed, you can take time to work as a nurse and earn income before taking the next step. Or you can keep ascending directly through each program and continue your education. The choice is yours.
